1.0 PREFACE

This Municipal Services Review (MSR) documents and analyzes the services provided by local governmental agencies in the Novato area. Specifically, this report evaluates the adequacy and efficiency of local government structure and boundaries within the region and provides a basis for boundary planning decisions by the Marin Local Agency Formation Commission (LAFCo).

Context

Marin LAFCo is required to prepare this MSR in accordance with the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Government Code §56000, et seq.), which took effect on January 1, 2001. The MSR reviews services provided by public agencies—cities and special districts—whose boundaries and governance are subject to LAFCo. The analysis and recommendations included herein serve to promote and coordinate the efficient delivery of local government services and encourage the preservation of open space and agricultural lands.

2.0 INTRODUCTION

2.1 ROLE AND RESPONSIBILITY OF LAFCO

Local Agency Formation Commissions (LAFCos) were established in 1963 and are political subdivisions of the State of California responsible for providing regional growth management oversight in all 58 counties. LAFCos’ authority is currently codified under the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (“CKH”), which specifies regulatory and planning powers delegated by the Legislature to coordinate and oversee the establishment, expansion, and organization of cities and special districts as well as their municipal service areas.

LAFCos’ regulatory and planning powers are set to fulfill specific purposes and objectives that collectively construct the Legislature’s regional growth management priorities under Government Code (G.C.) Section 56301. This statute reads:

“Among the purposes of the commission are discouraging urban sprawl, preserving open space and prime agricultural lands, efficiently providing governmental services, and encouraging the orderly formation and development of local agencies based upon local conditions and circumstances. One of the objects of the commission is to make studies and to obtain and furnish information which will contribute to the logical and reasonable development of local agencies in each county and to shape the development of local agencies so as to advantageously provide for the present and future needs of each county and its communities.”

LAFCo decisions are legislative in nature and not subject to an outside appeal process. LAFCos also have broad powers with respect to conditioning regulatory and planning approvals so long as not establishing any terms that directly control land uses, densities, or subdivision requirements.

Regulatory Responsibilities

LAFCos’ principal regulatory responsibility involves approving or disapproving all jurisdictional changes involving the establishment, expansion, and reorganization of cities and most special districts.1 More recently LAFCos have been tasked with also overseeing the approval process for cities and districts to provide new or extended services beyond their jurisdictional boundaries by contract or agreement as well as district actions to either activate a new service or divest an existing service. LAFCos generally exercise their regulatory authority in response to applications submitted by the affected agencies, landowners, or registered voters.

Recent CKH amendments, however, now authorize and encourage LAFCos to initiate on their own jurisdictional changes to form, consolidate, and dissolve special districts consistent with current and future community needs. The following table provides a complete list of LAFCos’ regulatory authority.

---

1 CKH defines “special district” to mean any agency of the State formed pursuant to general law or special act for the local performance of governmental or proprietary functions within limited boundaries. All special districts in California are subject to LAFCO with the following exceptions: school districts; community college districts; assessment districts; improvement districts; community facilities districts; and air pollution control districts.

</tr>
</tbody>
</table>

Planning Responsibilities
LAFCos inform their regulatory actions through two central planning responsibilities: (a) making sphere of influence (“sphere”) determinations and (b) preparing municipal service reviews. Sphere determinations have been a core planning function of LAFCos since 1971 and effectively serve as the Legislature’s version of “urban growth boundaries” with regard to cumulatively delineating the appropriate interface between urban and non-urban uses within each county. Municipal service reviews, in contrast, are a relatively new planning responsibility enacted as part of CKH and are intended to inform – among other activities – sphere determinations. The Legislature mandates, notably, all sphere changes as of 2001 be accompanied by preceding municipal service reviews to help ensure LAFCos are effectively aligning governmental services with current and anticipated community needs.

2.2 MUNICIPAL SERVICE REVIEWS
Municipal service reviews were a centerpiece to CKH’s enactment in 2001 and are comprehensive studies of the availability, range, and performance of governmental services provided within a defined geographic area. LAFCos generally prepare municipal service reviews to explicitly inform subsequent sphere determinations. LAFCos also prepare municipal service reviews irrespective of making any specific sphere determinations in order to obtain and furnish information to contribute to the overall orderly development of local communities. Municipal service reviews vary in scope and can focus on a particular agency or governmental service. LAFCos may use the information generated from municipal service reviews to initiate other actions under their authority, such as forming, consolidating, or dissolving one or more local agencies.

All municipal service reviews – regardless of their intended purpose – culminate with LAFCos preparing written statements addressing seven specific service factors listed under G.C. Section 56430. This includes, most notably, infrastructure needs or deficiencies, growth and population trends, and financial standing. The seven mandated service factors are summarized in the following table.

2.3 **MARIN LAFCO COMPOSITION**

Marin LAFCo is governed by a 7-member board comprising two county supervisors, two city councilmembers, two independent special district members, and one representative of the general public. Each group also appoints one “alternate” member. Each member must exercise their independent judgment, separate from their appointing group, on behalf of the interests of all residents, landowners, and the public. Marin LAFCo’s current commission membership is provided below in Table 2-3.

Marin LAFCo is independent of local government and employs its own staff. Its offices are located at 1401 Los Gamos Drive, Suite 220 in San Rafael. Information on Marin LAFCo’s functions and activities, including reorganization applications, are available by calling 415-448-5877 by e-mail to staff@marinlafco.org or by visiting [www.marinlafco.org](http://www.marinlafco.org).
3.0 EXECUTIVE SUMMARY

This study represents Marin LAFCo’s scheduled regional municipal service review of local agencies in the Novato region of eastern central Marin County. The underlying aim of the study is to produce an independent assessment of municipal services in the area over the next five to ten years relative to the Commission’s regional growth management duties and responsibilities. The information generated as part of the study will be directly used by the Commission in (a) guiding subsequent sphere of influence updates, (b) informing future boundary changes, and – if merited – (c) initiating government reorganizations, such as special district formations, consolidations, and/or dissolutions.

3.1 AFFECTED PUBLIC AGENCIES

This report focuses on seven agencies operating in the Novato Region as listed below and shown in Figure 1-1.

Together, these agencies provide a range of municipal services to the communities in which they serve, including:

**Water**

Water services include access to, treatment of, and distribution of water for municipal purposes. The Study Area is entirely within the North Marin Water District and the District is the sole purveyor of municipal water to the area. An in-depth review of countywide water services, including the North Marin Water District, was prepared by Marin LAFCo in 2016.

**Wastewater**

Wastewater services include collection, transmission, and treatment of wastewater. Within the Study Area, the Novato Sanitary District is the sole public provider of wastewater services. See Section 6 for a review of the District’s services.

**Fire Protection and Emergency Services**

Fire protection and emergency services consist of firefighting and fire prevention, emergency medical response, hospital service, ambulance, and rescue services. These services are somewhat interrelated in nature and overlap in functional application. The Novato Fire
Protection District is the primary service provider for fire protection and emergency services in the current study area.

**Park and Recreation Services**

Parks and recreation services include the provision and maintenance of parks and recreation services. This also includes open space management. Open Space land is commonly set aside for recreation and stormwater management purposes, as well as for natural resource protection, preservation of cultural and historic resources, preservation of scenic vistas, and many other reasons. In the current study area, much of the open space land is managed by the Marin County Department of Parks and Open Space which is not included in this MSR. Other entities that provide park and recreation services in the study area include the City of Novato, Bel Marin Keys Community Service District, County Service Area No. 1 – Loma Verde, and County Service Area No. 20 – Indian Valley.

**Channel Maintenance**

Channel maintenance includes periodic dredging of creek channels. For the current study area, Bel Marin Keys Community Service District is the only district that provides channel maintenance.

**Roadway Services**

Roadway services include construction, maintenance, planning of roads, and roadway lighting. Districts that provide Roadway Services in the current study area include Bel Marin Keys Community Service District and County Service Area No. 1 – Loma Verde.

### 3.2 PLANS, POLICIES, STUDIES

Key references and information sources for this study were gathered for each district considered. The references utilized in this study include published reports; review of agency files and databases (agendas, minutes, budgets, contracts, audits, etc.); Master Plans; Capital Improvement Plans; engineering reports; EIRs; finance studies; general plans; and state and regional agency information (permits, reviews, communications, regulatory requirements, etc.). Additionally, the consulting team, in coordination with the LAFCo Executive Officer, contacted each agency with requests for information.

The study area for this MSR includes communities within the City as well as unincorporated areas adjacent to the city. In the areas entirely outside of the City, Marin County has the primary authority over local land-use and development policies (and growth). The City of Novato has authority over land use and development policies within the City. City, County, and Community plans were vital for the collection of baseline and background data for each agency. The following is a list of documents used in the preparation of this MSR:

- City and County General Plans
- Specific Plans
- Community Plans
- Agency databases and online archives (agendas, meeting minutes, website information)
3.3 AGENCY AND PUBLIC PARTICIPATION

Consistent with the approved scope of work, this study has been prepared with an emphasis in soliciting outside public review and comment as well as multiple opportunities for input from the affected agencies. These efforts are summarized below. This included information requests sent to individual agencies, draft agency profiles also sent to agencies, and review of the draft report prior to Commission action.

This MSR is posted on the Commission’s website (www.marinlafco.org). It may also be reviewed at the LAFCo office located at 1401 Los Gamos Drive, Suite 220 in San Rafael during open hours.

</table>
3.4 WRITTEN DETERMINATIONS

The Commission is directed to prepare written determinations to address the multiple governance factors enumerated under G.C. Section 56430 anytime it prepares a municipal service review. These determinations are similar to findings and serve as independent statements based on information collected, analyzed, and presented in this study’s subsequent sections. The underlying intent of the determinations is to identify all pertinent issues relating to the planning, delivery, and funding of municipal services as it relates to the Commission’s role and responsibilities. An explanation of these seven determination categories is provided below.

1. Growth and Population

This determination evaluates existing and projected population estimates for the City of Novato and the adjacent unincorporated communities within the study area. The ability of each provider to accommodate growth and demand projections is considered in each agency profile.

2. Location and Characteristics of any Disadvantaged Unincorporated Communities Within or Contiguous to the Sphere of Influence.

This determination was added by Senate Bill (SB) 244, which became effective in January 2012. A disadvantaged community is defined as an inhabited community of 12 or more registered voters having a median household income of 80 percent or less than the statewide median household income.

3. Capacity and Infrastructure

Also discussed is the adequacy and quality of the services provided by each agency,
including whether sufficient infrastructure and capital are in place (or planned for) to accommodate planned future growth and expansions. This is detailed for each provider.

4. Financing
This determination provides an analysis of the financial structure and health of each service provider, including the consideration of rates and service operations, as well as other factors affecting the financial health and stability of each provider. Other factors considered include those that affect the financing of needed infrastructure improvements and compliance with existing requirements relative to financial reporting and management.

5. Shared Facilities
Opportunities for districts to share facilities are described throughout this MSR. Practices and opportunities that may help to reduce or eliminate unnecessary costs are examined, along with cost avoidance measures that are already being utilized. Occurrences of facilities sharing are listed and assessed for more efficient delivery of services.

6. Government Structure and Local Accountability
Accountability and governance are described in Chapter 4 for each provider. This subsection addresses the adequacy and appropriateness of existing boundaries and spheres of influence and evaluates the ability of each service provider to meet its demands under its existing government structure. Also included is an evaluation of compliance by each provider with public meeting and records laws (Brown Act).

7. Other Matters Related to Effective or Efficient Service Delivery, as Required by Commission Policy
Marin LAFCo has specified the sustainability of local agencies as a priority matter for consideration in this MSR. Sustainable local governments that take practical steps to protect the environment and our natural resources through land conservations, water recycling and reuse, preservation of open space and opting to use renewable energy are the key players in determining the sustainability of the region.

In addition, other matters for consideration could relate to the potential future SOI determination and/or additional effort to review potential advantages or disadvantages of consolidation or reorganization.

A summary of determinations regarding each of the above categories are provided in Chapter 11 of this document and will be considered by Marin LAFCo in assessing potential future changes to an SOI or other reorganization.
4.1 UNINCORPORATED ISLANDS

The State Legislature has recognized that pockets of unincorporated territory which are surrounded or substantially surrounded by incorporated cities, typically known as “islands”, create governance and service delivery inefficiencies and deficiencies. Marin LAFCo’s Unincorporated Island policy encourages annexations of islands to cities to further reduce and/or eliminate islands to provide more orderly local governmental boundaries and cost-efficiencies.

There are five unincorporated islands in City of Novato region, including Bel Marin Keys, Black Point, Green Point, Indian Valley, and Loma Verde. Each of these neighborhoods are described in more detail in the discussion below.

**Black Point**

The Black Point planning area, along with its immediate neighbor Green Point, is an island of unincorporated territory, surrounded by the City of Novato on one side and San Pablo Bay on the other. The unincorporated Black Point neighborhood abuts the unincorporated Green Point neighborhood, the Petaluma River, and the northeast jurisdictional limits of Novato (See Figure 3-1). The area is primarily rural-residential, surrounded by open space.

Zoning in the area is primarily Agricultural Limited 2 and Open Area\(^2\) which allows for the rural residential nature of the community. Basic services in the area include water and fire protection. The community is within the Novato Sanitary District SOI but does not currently receive service from them. Instead, residents rely on onsite wastewater treatment systems.

Black Point has many natural resources and associated hazards. Almost the entire area is within the Wildland Urban Interface and susceptible to wildland fires. The Novato Fire Protection District works collaboratively with county and other local fire agencies to help educate residents about the risk of wildland fires. The community is also located next to the San Andres Fault Zone but it is primarily on soil that would not greatly amplify shaking and has a very low liquefaction rating\(^3\). Another hazard of concern is flooding. Most of the community is located on higher elevation hill areas that are not within the 100-year flood zone\(^4\), however, some portions of the community along the tidal marshes could be susceptible to flooding and potential impacts from sea-level rise.

The community, while adjacent to the City of Novato boundary, has expressed that they would like to maintain the unincorporated status of the area in order to limit development and maintain the rural setting of the community. This is also the reason why wastewater service from Novato Sanitary District has not been extended to the area. Onsite water treatment systems limit the development of higher occupancy residential areas due to their limited capacity\(^5\).

**Green Point**

The unincorporated community of Green Point is adjacent to the Black Point neighborhood. Paralleling the Petaluma River, it is bounded on the south by the flat uninhabited bay plains, which

---

\(^2\) Marin Map Viewer, County Unincorporated Zoning.

\(^3\) Ibid, pgs. 36-39.

\(^4\) Ibid, pg. 41.

separates the community from the City of Novato. Principal access to Green Point is via State Route 37, which separates Green Point and Black Point.

Green Point largely developed within the last forty years with large residential lots interspersed with agriculture and large swaths of open space\(^6\). According to Marin County’s Green Point Community Plan, the neighborhood has historically retained a rural sense of place, with an absence of urban services and amenities.

The Green Point Advisory Committee (GPAC), incorporated in 2016, was formed to advise the County on matters affecting the Green Point community.

**Bel Marin Keys**

The unincorporated community of Bel Marin Keys is located in the southeast Novato region between Highway 37 and Highway 101 and is primarily served by the Bel Marin CSD (see Bel Marin Keys CSD profile in Section 8). The community is estimated to cover approximately one square mile and has an estimated 700 housing units. In 1982 Marin LAFCo excluded the Bel Marin Keys area from the City of Novato’s SOI. The 2002 municipal service review for the region noted that the Bel Marin Key’s residents desire for the exclusive use of its waterways and the city’s desire to avoid the cost liability and service responsibility associated with Bel Marin Keys’ waterways fostered a mutual interest in maintaining the community separate from the city.

**Loma Verde**

The Loma Verde neighborhood is located in the southern portion of Novato. Made up of primarily single-family homes with some apartments and townhomes, the neighborhood’s developed residential area is unincorporated but completely surrounded by the City of Novato, and within the City’s SOI. Adjacent to, and associated with the neighborhood is the Loma Verde Open Space preserve. The preserve itself is within Novato city limits. Both the preserve and unincorporated Loma Verde neighborhood are within the boundaries of CSA 1. See Section 9 for further discussion of CSA 1.

**Indian Valley**

As defined in the Marin Countywide Plan and Indian Valle Specific Plan, Indian Valley is comprised of the approximately 630-acre unincorporated portion of the Novato area lying south of Mill Road between Pacheco Avenue and Trumbull Avenue, extending to the boundary of the agricultural and open space preserves to the south. This entire unincorporated neighborhood is within the City of Novato’s SOI.

Land ownership in Indian Valley is principally single-family housing with parcel sizes ranging from one to nearly 45 acres. Other uses include equestrian activity, orchards and livestock (cattle, sheep) pasture and grazing. There is no multi-family use, no institutional use, and no commercial use other than home-office oriented businesses and several horse stables and plant nurseries.

---

\(^6\) Marin County. 2016 Green Point Community Plan. Adopted by the Marin County Board of Supervisors on July 26, 2016. Pg. 26
4.2 GROWTH AND POPULATION

LAFCo is required to make a determination in this MSR on growth and population. When planning for the provision of future services and infrastructure it is important to have ready access to accurate growth and population projections. This MSR also identifies and considers disadvantaged communities and growth and population data contribute to that analysis. The region’s growth rates are based on historical development patterns, the County and Marin’s general plans, regional estimates from the Association of Bay Area Governments and California Department of Finance, and information provided by special districts.

Land Use

Marin County is generally considered an “infill” county, with new development guided to existing urbanized areas. The Marin Countywide Plan (2007) serves to guide the conservation and development of Marin County through policies that protect open space and “community separators” in the city-centered corridors. Marin County’s 520 square miles is only 11% developed with urban uses, and only 5% of the remaining land is potentially developable under existing policies. Agricultural lands make up 36% of the County’s total area, parklands 33%, and the remaining 15% in public or private open space use.

The Novato Region has a rural atmosphere largely because of its low population density and the high amount of open space and parks in and near the city. Novato’s population density is about one-half that of San Rafael and is nearly one-third that of Petaluma or Vallejo.

Current Population

Marin County experienced progressive growth between 1950 and 1960 when the population jumped substantially from 85,619 to 146,820, an increase of 72%. Compared to other Bay Area counties, Marin County has since experienced slow population growth rates between three and five percent. Overall Marin remains the slowest growing county in the Bay Area.

The City of Novato accounts for the majority of the population within the Study Area, with an estimated population of 55,655 in 2018. The Black Point–Green Point Census Designated Place (CDP) encompasses both communities, which are also within the Study Area. Together they have an estimated population of 1,544.

Projected Growth and Development

According to 2013 projections by the Association of Bay Area Governments (ABAG), the Novato population is expected to increase to a total population of 53,900 by 2025 with an estimated annual growth rate of 0.3 percent. ABAG projected the population of Marin County as a whole to increase by 14,191 for a total population of 266,600 in 2025.

---

7 Marin LAFCo. Novato Regional Municipal Service Review. 2006.
8 City of Novato Adopted Budget 2018/19. Pg. 11.
Disadvantaged Unincorporated Communities

LAFCo is required to evaluate disadvantaged unincorporated communities (DUCs) as part of this review, including the location and characteristics of any such communities within or contiguous to the SOIs established in the Study Area. A DUC is an unincorporated geographic area with 12 or more registered voters with a median household income of 80% or less of the statewide median household income. The identification of DUCs is intended to ensure that the needs of these communities are met when considering service extensions and/or annexations in unincorporated areas. There are no identified DUCs within the Study Area.
5.0 CITY OF NOVATO

5.1 OVERVIEW
The City of Novato, California is the northernmost city in Marin County, approximately twenty-nine miles north of San Francisco and thirty-seven miles northwest of Oakland. Characterized by a low population density (persons per acre) and a high amount of open space and parks in and near the city, Novato’s jurisdictional boundary covers twenty-eight square miles with a population of 55,655\textsuperscript{12}. The city’s population density is about one-half that of San Rafael and is nearly one-third that of Petaluma or Vallejo\textsuperscript{13}.

Novato provides a range of municipal services, including streets and street lighting; land use planning; recreation, park, and open space; and law enforcement. Other municipal services to the city are provided by several special districts.

5.2 FORMATION AND DEVELOPMENT
During the latter half of the 19th century, fruit orchards and the new Northwestern Pacific Railroad Depot spurred development in the Novato region. In 1888, land grants were subdivided into lots and parcels, providing the footprint of the new town along the railroad tracks. By the end of the nineteenth century, Novato had a well-developed downtown with residential development concentrated around the railroad and Grant Avenue.

The 1920s saw the continued development of Novato. The Sanitary District was formed and sidewalks were paved. The Great Depression brought a halt to Novato’s economic growth and development, until the construction of Hamilton Field in 1932 (a United States Air Force base decommissioned in 1974), and subsequently World War II, which brought an abundance of new jobs to Novato.

\textsuperscript{13} City of Novato Adopted Budget FY 2018-19, “Compiled”.

Marin LAFCo
Public Review Draft MSR

Novato Region
August 2019
Novato incorporated on January 20, 1960, as a General Law city. Residential development in the 1960s and 1970s spread outward along Novato Boulevard, as the City’s population increased from 17,900 in 1960 to nearly 44,000 by 1980.

Today, the existing land use in Novato is predominately residential in the valley areas west of Highway 101 and in neighborhoods east of the freeway. Most units are single-family detached homes on lots under one acre in size. In the last two decades, the re-use of the Hamilton Army Airfield added over 2,100 new homes to Novato.14

5.3 CITY BOUNDARY AND SPHERE OF INFLUENCE

The current City of Novato jurisdictional boundary is roughly 28 square miles (17,857 acres) in size and largely defined by the topography of the area. The northeast portion of the city abuts the Petaluma River and the Marin/Sonoma County line. The eastern extent of the city is surrounded by San Pablo Bay while the western and the southern extents are defined by open space preserves, steep topography, and Big Rock Ridge.

Marin LAFCo originally established a City of Novato sphere of influence (SOI) in 1982. At that time, it included most of the unincorporated territory surrounding the city, extending to cover open space areas within the City’s drainage and viewshed. Notably, it did not include the Bel Marin Keys area. In 2002, the Commission conducted a municipal service review and sphere of influence update. The updated sphere excluded publicly owned open space as well as the Indian Valley, Black Point, and Green Point neighborhoods, reflecting the city’s adopted Urban Growth Boundary (UGB).15 The Commission’s 2007 update reaffirmed the 2002 sphere, recommending no change. No sphere changes have occurred since.

The current SOI is generally coterminous with present city boundaries with four exceptions (comprising a total of 1,384 acres): (1) the Loma Verde neighborhood; (2) the Vineyard Road area; and (3) Atherton Avenue between U.S. 101 and Buigea Lane, and (4) portions of the St. Vincent properties abutting Novato to the south.16 See Figure 5-1. The County has designated approximately 56 percent of this land for very low- and low-density residential use and 27 percent for open space and conservation.17

Urban Growth Boundary

As discussed in Section 2, an SOI is a planning boundary determined by LAFCo that establishes the probable physical boundaries and service area of the city. Within a city’s jurisdictional boundary (established by LAFCo) a city may also develop policies for itself (such as an urban growth boundary), to guide development and the extension of its services. In 1997 the voters of

---

https://novato.org/home/showdocument?id=11898
Novato adopted an Urban Growth Boundary (UGB) to constrain the expansion of “urban” development (e.g., that which required sewer and water utilities) into the rural areas surrounding the incorporated City limits.

Initially established in 1997, Novato citizens reaffirmed the UGB and its associated policies to continue through 2037 via ballot Measure D in 2017. Established as coterminous with the city limit, there have been several minor amendments to the UGB to annex single or small groups of property to the city. The UGB’s intention was to protect the area surrounding the city from development, maintain agricultural uses, and maintain open space separators between itself and other nearby cities by limiting land use beyond the boundary to non-urban uses such as agricultural, conservation, parkland, and open space, with limited exceptions.

Novato’s UGB guides city decisions on land within its jurisdiction, however, given that the majority of land the UGB aims to protect is outside of the city’s jurisdictional boundary, and the city does not directly provide services like water and sewer (development-related services), land use and development in unincorporated areas surrounding are not directly within the Novato’s control. The City has the ability to comment on projects that occur outside the city limits but within its SOI. However, given that SOI is currently set to be generally coterminous with the city limit line and UGB (with exception of unincorporated areas discussed above), much of the unincorporated land bordering Novato is not required to concurrently annex to the City if seeking annexation to the Sanitary and/or Water Districts. Accordingly, while not required to do so, Marin LAFCo does send single-district annexations noticing to neighboring jurisdictions, it does not carry the same weight in the decision-making process when the jurisdiction has no planning oversight.

While the City does not have land-use authority over the unincorporated lands surrounding the City, there are tools available to them to further establish their region of interest. The Governor’s Office of Planning and Research (OPR) recommends that cities establish a planning area as a part of their general plan development. Should the City wish to have a more active role in land use decisions outside of its UGB, they could consider working together with the County and surrounding local agencies to delineate a Novato planning area and consider establishing formal agreements for processing development proposals within the area.
City of Novato Overview

Sources: Boundaries, Roads, Parcels: Marin Map GIS.

Date: 7/23/2019
5.4 MUNICIPAL SERVICES

The City of Novato and the surrounding area is served by a variety of public services and facilities. Many services are provided by independent public agencies other than the City: water supply is provided by the North Marin Water District; wastewater collection and treatment, and trash collection and recycling are provided by the Novato Sanitary District; fire protection is provided by the Novato Fire Protection District; Flood Control is provided by the Marin County Flood Control & Water Conservation District; schools are provided by the Novato Unified School District; and libraries are provided by the Marin County Free Library District. The Pacific Gas & Electric Company provides electricity and natural gas distribution, and Marin Clean Energy provides an alternative energy source. City facilities include the City Hall, the administrative offices building, the police station, and the Corporation Yard.

The City of Novato provides the following municipal services:

- Land use planning
- Stormwater drainage
- Streets and street lighting
- Recreation, park, and open space
- Law enforcement

The below sections describe the provision of services by Novato in more detail.

Land Use Planning

The Community Development Department is charged with providing city land use planning services. They assist the City Council, and ultimately the community, in planning for the City's future development, and reviewing proposed development projects for conformance with the City's adopted policies and ordinances and environmental laws. The Department also provides ongoing monitoring of deed restricted housing stock, including resales and rentals, and implementation of various housing programs contained in the Housing Element.

Within the department are several divisions:

- Building Division
  - Provides building permitting and inspection processes
- Code Enforcement Division
  - Enforces the Novato Municipal Code
- Planning Division
  - Develops and administers the City's General Plan, zoning regulations, and planning permit processes.
The primary City planning vehicle is the General Plan, the foundation for establishing goals, purposes, zoning, and activities allowed within the city. The City's General Plan was last completely updated and approved by City Council in December 1996. General Plan Elements have been updated since, such as the 2014 Housing Element. Since 2016, Novato has been updating the plan and a Draft General Plan 2035 is available on the city website (https://novato.org/government/community-development/general-plan-update). The City is also preparing a Draft 2019-27 Housing Element for State Housing and Community Development review.

Streets and Street Lighting

The city’s Public Works Department provides design, construction, maintenance and operation of public use facilities, including all roads and street lighting. The Public Works Director serves as the City Engineer and manages the Administrative, Engineering and Maintenance Divisions. The Department employs 55.5 full-time equivalents (FTE) positions and maintains facilities, including parking lots, roads, parks, traffic signals, and street lights.

Projected departmental expenditures for 2019-20 are $7,236,753 (12.5% of the General Fund expenditures), similar to the 2017-18 adopted budget. Projects completed by the Department as a part of their Capital Improvement Program. Approximately 13. 8 million has been budgeted through the program for the 2019-20 fiscal year.

In the 2018-19 fiscal year, the department completed the following projects:

- Renovated the Dogbone Meadow dog park;
- Enhanced 7 pedestrian crossings and refreshed all school-zone crosswalks and signage;
- Completed Vineyard Rd. Improvements;
- Rebuilt retaining wall along Sunset Parkway;
- Built a Marin Valley Mobile Country Club retaining wall and walkway installations;
- Performed LED lighting upgrades to save $20-30K in annual costs;
- Reduced flooding by pre-emptive storm drain maintenance; and
- Refurbished Pioneer Park restrooms

Department Goals for Fiscal Year 2019/20 include:

- Complete a fire-wise assessment of city-owned properties in conjunction with NFPD,
- Develop annual defensible space clearance program;
- Begin construction on Hill Recreation Area Central Hub Project;
- Review and update City’s Development Impact and Public Works fees for services;
- Forecast long-range infrastructure funding needs;
- Repave Nave Drive and complete right-of-way acquisition for Grant Ave. Bridge Project;
- Increase the number of Parking Spaces downtown;
- Begin implementation of a Computer Maintenance Management System;
- Increase # of fuel-efficient vehicles in City fleet; and
- Continue organic sheet mulching and explore other options for eco-friendly weed control.
Recreation, Park, and Open Space
The Parks, Recreation & Community Services Department has oversight of City park and recreation facilities, programs, special events, classes, and childcare services. It offers a range of social and recreational programs and activities for all ages. From sports leagues and facility rentals to youth classes and senior events. They also manage park use.

The Department employs 23.3 FTE positions and oversees the operations of a range of facilities. The Culture and Recreation expenses for the city are budgeted $5.3 million (13% of the General Fund expenditures) for the 2019-20 fiscal year.

City park facilities include 439 acres of parks at 29 park sites or approximately 8.5 acres per one thousand residents. Parks in Novato feature, among other amenities, hiking trails, playgrounds, playing fields, outdoor courts, amphitheater, a skate park, a dog park, a community swimming pool, and picnic areas.

Law Enforcement
The City of Novato provides law enforcement, dispatch, and emergency preparedness services to all areas within the city limit and response to nearby unincorporated neighborhoods as necessary. The Novato Police Department is located at 909 Machin Avenue in Novato. As a full-service agency, NPD is divided into the Operations Division and the Administrative Services Division each led by a Police Captain. The Novato Police Department maintains its own Dispatch Center. Dispatchers receive and handle calls, including 911 calls, 24 hours a day.

Projected expenditures for 2019 are 17 million (41% of the General Fund expenditures), similar to the 2017-18 adopted budget. There are approximately 82 staff in the department including 60 sworn personnel, and a volunteer program. This equates to 1.07 full-time sworn officers per 1,000 population. The national average in 2016 (most recent available) was 2.17 full-time sworn officers per 1,000 population.

Department community engagement efforts include the Minors Access to Alcohol Prevention and Bicycle/Pedestrian Safety programs. The Novato Response Team is a special police team focused on crime prevention and intervention. It meets with residents to provide crime prevention tips, visits schools to mentor youth and reduce gang involvement and works with property owners of multifamily housing to ensure the safety of their residents and the surrounding community.

5.5 ORGANIZATIONAL STRUCTURE
The City of Novato was incorporated on January 20, 1960, as a general law city. The City Council is made up of five members, elected at large, serving four-year terms. The Mayor is selected from...
City Council members for a one-year term. The Council operates under a council-manager form of government and directly appoint both the City Manager and the City Attorney.

City Council duties also include establishing legislation and policies governing the city; adopting all ordinances, resolutions, and major contracts; approving and modifying annual budgets; making appointments to advisory boards, commissions, and committees. City Council meetings are scheduled the second and fourth Tuesday every month at 6:00 p.m. in the Novato City Hall Council Chambers located at 901 Sherman Avenue.

**Staffing and City Operations**

The City Manager is responsible for city operations management and policy implementation on behalf of the City Council. The City Manager is an at-will employee and administers the City of Novato’s departments. The City has 208.5 FTE employees and delivers municipal services through six departments: Central Administration, Police, Community Development, Public Works, Parks & Recreation, and Community Services.\(^{19}\)

---

5.6 ACCOUNTABILITY AND TRANSPARENCY

Meetings and Agendas
When conducting service reviews and reviewing proposals, LAFCo considers an agency’s accountability for community service needs, including governmental structure, operational efficiencies, financial resources, and promoting public access.

The City offers multiple ways to keep citizens informed about services, meetings, finances and decision-making processes. Public notices are posted on the website. Past meeting agendas and meeting minutes may be found in the Public Meetings section of the City’s website. The public may also provide verbal comments or complaints by phone or in person at City Hall during business hours and/or at City Council meetings during the public comment period.

5.7 FINANCIAL OVERVIEW
The City of Novato prepares an annual report on the City’s financial statements in accordance with established governmental accounting standards. The most recent audited financial statement was prepared by the independent certified public accounting firm, Mann, Urrutia, Nelson, CPAs, for the fiscal year ending on June 30, 2017.

The City adopts an annual budget effective July 1 for the ensuing fiscal year. The budget reflects estimated revenues and expenditures. Appropriations and spending authorizations for projects in the capital projects funds and some special revenue funds are approved by the City Council on a multi-year basis. The City Council may amend the budget by resolution during the fiscal year in order to respond to emerging needs, changes in resources, or shifting priorities. Expenditures may not exceed appropriations at the fund level, which is the legal level of control. The City Manager is authorized to transfer budgeted amounts between accounts, departments or funds; the Council must approve any increase in the City’s operating expenditures, appropriations for capital projects, and transfers between major funds and reportable fund groups.

Revenues and Expenditures
The Fiscal Year (FY) 2018-2019 expenditure budget for Novato is $42.2 million (including appropriations and transfers out to other funds). See Figure 5-3. The expenditure budget is supported predominantly by a projected revenue of $41.7 million. See Figure 5-4.

The FY 2018/19 budget is balanced and does not require the use of one-time reserves for ongoing expenditures, however, in the Final Budget adoption staff report, city staff noted that the City faces fiscal challenges that will remain unless the Council implements new revenue sources that create a sustainable revenue stream over future years. According to the report, approximately 70% of the city’s expenditures are personnel costs which are appropriated for the purposes of providing services and programs for the residents of Novato. The city will either need to reduce personnel costs to a level that would offset future expenditure increases and/or evaluate and implement
multiple revenue growth strategies that will generate sufficient revenue to meet the future projected expenditure increases to the General Fund.

**Figure 5-3: Novato Budget Expenditures**

**Figure 5-4: Novato Budget Revenues**
5.8 SUSTAINABILITY

The City of Novato was one of the first cities in Marin to adopt a Climate Action Plan in 2009. Since that time, they have worked to integrate sustainability actions into city operations and the community at large. Major past accomplishments include converting more than 4,000 streetlights to energy-efficient LEDs and switching over to Deep Green 100% renewable energy at all city facilities.

Currently housed within the Central Administration Department, Novato maintains a Sustainability Division which focuses on implementing the City’s Climate Change Action Plan, reducing greenhouse gas emissions and preserving natural resources in City operations and throughout the community. They have a Sustainability Coordinator who implements an internal staff Green Team, secures Green Business Certification for City operations, and provides support for community sustainability-related events.

Current division activities include: a range of education and outreach programs with a focus on reducing greenhouse gas emissions, adding electric vehicles to the city fleet, retrofitting several municipal buildings to be more energy and water efficient, reducing the environmental impact of city purchasing decisions, exploring options to increase municipal solar electricity generation, and rolling out a green commute program for city staff.

In the 2019/20 fiscal year, the City has prioritized the following items:

![General Fund Revenues by Category Fiscal Year 2019/20](image)

*Figure source: City of Novato website, Finance page. Accessed July 12, 2019.*
• Update the Climate Action Plan;
• Establish energy efficiency, water conservation and waste reduction targets for each City-owned Facility;
• Manage the Reimagining Citizenship program, fostering the next generation of community leaders;
• Implement expanded recycling programs at Hamilton Community Center and Margaret Todd Senior Center;
• Manage the Reimagining Citizenship program, fostering the next generation of community leaders;
• Develop and implement targeted community action campaigns focused on renewable electricity, idling, food waste, and school travel;
• Support the implementation of the Clean Fleet Policy;
• Develop a community-wide Electric Vehicle Strategy; and
• Identify City-owned properties suitable for solar installations.

Recent program accomplishments noted in the FY 2019/20 budget include:

• Implemented lighting upgrade in the police station;
• Conducted quarterly Climate Action Roundtable meetings with the community;
• Hosted North Bay Climate Action Summit at the Buck Institute Marin/Sonoma Climate Action Summit, in conjunction with the state Global Climate Action Summit;
• Organized inaugural Green Living Festival to celebrate Earth Day;
• Submitted successful grant application to Cal Recycle for county-wide food waste prevention; and
• Established two community (Organic Waste and School Travel) and two staff (Green Facilities and Green Fleet) working groups to tackle sustainability issues.
6.0 NOVATO SANITARY DISTRICT

6.1 OVERVIEW
The Novato Sanitary District (NSD) was one of the first agencies formed in the Novato Region. The NSD boundary includes the city of Novato and surrounding populated areas. Being adjacent to San Pablo Bay provides for unique conservation activities, in that Recycled water can be transferred to wetland and agricultural sites to help promote restoration and farming (pasture) activities and to reduce treated water volumes discharged into the bay.

NSD was originally formed to manage solid waste in the Novato region. Now, NSD provides wastewater collection, solid waste disposal by a franchise agreement, and recycled water distributed by the North Marin Water District. In the upcoming years, NSD will continue to collaborate with other North Bay region wastewater and water service providers to increase recycled water use and share facilities.

</tr>
</tbody>
</table>

6.2 FORMATION AND DEVELOPMENT
The NSD was formed in October 1925 after approval in a special election held September 30, 1925\(^{20}\). The district was formed to provide oversight to sanitary systems in Novato, primarily solid waste disposal. Later on, in 1949, a collection system and primary treatment plant were built to serve community needs. Most recently, in 2011, NSD consolidated its aging Ignacio and Novato treatment plants into an upgraded facility at the Novato Treatment Plant (NTP) site. The upgraded plant is more energy-efficient and has the capacity to meet projected future needs.

\(^{20}\) Marin County Board of Supervisors, Meeting Minutes October 5, 1925, Minute Book pg. 80.
6.3 DISTRICT BOUNDARY AND SPHERE OF INFLUENCE

Novato Sanitary District’s sphere of influence is coterminous with the outer edges of its jurisdictional boundary. The original district boundary encompassed a small portion of Novato. Over the years, multiple annexations took place as Novato expanded. The current boundary totals 20,006.4 acres which equates to 31.26 square miles. NSD serves communities within the City of Novato and those directly adjacent to the City boundary including Bel Marin Keys, Loma Verde, and neighborhoods surrounding Verissimo Hills Preserve and Ohair Park.

Within the NSD boundary, there are several parcels and small areas that are not included as part of the district. These properties have on-site wastewater systems and do not require NSD connections. They do remain within the NSD SOI in the event that future connections are needed.

6.4 MUNICIPAL SERVICES

Wastewater

NSD owns and operates a wastewater collection system, a municipal wastewater treatment plant (WWTP), and an effluent discharge outfall. The WWTP is the Novato Treatment Plant, which is currently designed for an average dry weather flow of 7.0 MGD. This plant was significantly upgraded and placed into service in 2011. Also, in 2010 NSD entered into an agreement with Veolia Water to operate the NSD treatment facilities on a contract basis. In 2018 the WWTP processed a total of 1,569.28 million gallons of wastewater. The maximum monthly flow was 200.92 million gallons in March and the minimum was 100.90 million gallons in September21.

NSD’s wastewater collection system collects and transports wastewater flows to the WWTP through a series of gravity sewers and interceptors, pump stations, and force mains. The combined collection and conveyance systems include a total of about 235 miles of sewers with about 212 miles of gravity sewer lines ranging from 6-inch to 48-inch diameter, about 23 miles of force mains, 5 main pump stations, and 33 lift stations. The pump stations vary in capacity from about 50 GPM to about 5 MGD, and individual pumps range from 3 hp to 90 hp22.

Over the last two decades, NSD has been working on upgrading its aging facilities. The WWTP was upgraded in 2011 and the sewer collection system and pump stations have been going through upgrades since 2000. In FY 2019-20 NSD is anticipated to complete a Collection System Master Plan (CSMP) that will further identify needed improvements to its collection system for the next 10-20 years.

Rates

Residential rates for sewer service are calculated using Equivalent Dwelling Units (EDU) and the customer’s water usage during the winter months. Rates are broken down into three tiers Low, Average, and high water-use. Details are provided below in Table 6-2.

---

Table 6-2: Novato Sanitary District Residential Sewer Service Charges

<table>
<thead>
<tr>
<th>Tier</th>
<th>Percent of Average Winter Water Use</th>
<th>EDU</th>
<th>Cost per EDU 2018-2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Low</td>
<td>25% or less</td>
<td>0.6</td>
<td>$370</td>
</tr>
<tr>
<td>Average</td>
<td>26% to 199%</td>
<td>1.0</td>
<td>$615</td>
</tr>
<tr>
<td>High</td>
<td>200% or more</td>
<td>1.8</td>
<td>$1,105</td>
</tr>
</tbody>
</table>

Non-residential rates are based on building square footage, water use, and building type. A full non-residential categories and rates list is on the NSD website under Sewer Service Charges. Rates are scheduled to increase annually for both residential and non-residential service over the next few years. While the rates are set to increase, NSD works to keep customer costs down by maintaining a small staff, pursuing grants to cover project costs, and seeking low-interest loans for large capital improvements.

Recycled Water
The NSD participates in the North Bay Water Reuse Authority (NBWRA) which is a collaboration of several local agencies serving the North Bay region. NBWRA is implementing recycled water programs in two major phases that focus on infrastructure upgrades, storage, and providing recycled water for landscaping, agriculture, and wetland restoration. In Phase 1, NSD added recycled water production capacity and began to provide recycled water for distribution by the North Main Water District (NMWD)\(^23\). In Phase 2, NSD will potentially work towards expanding its recycled water production capacity in conjunction with NMWD\(^24\).

In 2018 NSD produced 165.414 million gallons of recycled water that was delivered by the North Marin Water District\(^25\). The NSD works with North Marin Water District and Las Gallinas Valley Sanitary District to provide recycled water to large landscaped areas, golf courses, school and park areas, and several commercial uses. Additionally, during the summer months (June 1 to August 31) NSD sends its secondary treated effluent to its effluent storage ponds located near Deer Island, north of Hwy 37. This water is used to irrigate approximately 800 acres of pasture land that the NSD leases for grazing operations. The irrigation operations reduce the volume of treated water discharged into the bay. In 2018, 243 million gallons of treated effluent was used for irrigation.

Solid Waste Management
NSD contracts with a franchise service provider, Recology Sonoma-Marin (Recology), that manages recycling, composting, and garbage collection in the region. Recology has a “Waste Zero” vision that works by diverting waste from landfills. They utilize a three-bin system that

---

includes compost, recycle, and trash. In 2018, the total waste generated and picked up by Recology was 55,046 tons, with 24,850 tons (45.14%) diverted through recycling processes.

The original franchise agreement was made with Novato Disposal Service in 2011. Since then, Recology bought out Novato Disposal Service and took over the remainder of the agreement which extends through December 31, 2025. Recology performs the responsibilities and duties as described in the agreement with the understanding that fees will be collected from customers for services rendered. Recology does not receive payment from NSD as part of the agreement.\(^{26}\)

**Rates**

Solid waste disposal rates are based on residential and commercial customer bin size and are charged on a monthly basis. Current rates are provided below in Table 6-3. A full list of residential and commercial rates along with extra services are on the Recology website.\(^{27}\)

Note: All rates are per month and based on one collection per week. Additional charges apply for more frequent collections and commercial/multi-family units.

### 6.5 ORGANIZATIONAL STRUCTURE

**Board of Directors**

NSD is overseen by a five-member Board of Directors that are elected to four-year terms. The NSD is currently seeking changes to how the board members are elected. Previously, members were elected at large. Now, the board members will be elected by region within the NSD boundary.

Board members are entitled to compensation for their participation. Members receive $225 per meeting or per day if multiple meetings are scheduled on the same day. The current Board members are listed below in Table 6-4.

\(^{27}\) https://www.recology.com/recology-sonoma-marin/novato/rates/.
Staffing and District Operations
NSD currently supports 23.32 Full-Time Equivalent employees including a General Manager that oversees operations\textsuperscript{28}. Operations are organized into several divisions including Project/Plant Management, Field Services, Collection Systems, and Engineering.

6.6 ACCOUNTABILITY AND TRANSPARENCY

Meetings and Agendas
Board meetings are held on the second Monday of every month at 5:30 pm at the District office. Meeting agendas, minutes, and handouts are on the District webpage (www.novatosan.com). The current meeting agenda is displayed on the homepage for easy access.

Annual Budget Review
NSD provides an annual budget to the Board for review and consideration. An independent financial auditor, Maze & Associates, has conducted the most recent annual audit of NSD’s financial statements. Both the annual budget approved by the Board and the financial audit can be found online on NSD’s website.

6.7 FINANCIAL OVERVIEW

NSD’s primary source of revenues is from service fees. Additional revenue sources include property taxes, rental fees, and grants. Major expenses include the operation of the wastewater treatment plant and collection system, infrastructure upgrades, and administrative and engineering operations. A summary of NSD’s financials is provided below in Tables 6-5 and 6-6.

### Revenue

NSD’s primary revenue source is service fees. As discussed above in Section 5.5, there is a tiered rate structure based on winter water use. In FY 2017-18 sewer service fees totaled over $17.7 million accounting for 83% of NSD’s total revenue. Fees for sewer services are billed annually on the County of Marin’s property tax bills. An additional 11% of NSD’s total revenue comes from property taxes which in FY 2017-18 totaled $2,360,251.

### Debt

NSD has several long-term debt obligations including Wastewater Revenue Certificates of Participation totaling $13,410,000 and a State Revolving Fund Loan totaling $59,463,938 as of June 30, 2018. The NSD’s total debt is $74,518,409 as of June 30, 2018.

NSD issued Refunding Bonds in 2017 to refund the 2011 Wastewater Revenue Certificates of Participation. These bonds have an interest rate of 2.03% that is payable twice per year. In 2008, NSD was granted a loan for $81,329,083 in order to construct upgrades to the Novato Treatment Plant. This loan is being repaid at a rate of 2.40% interest. For FY 2018-19 the anticipated principal paid is $3,951,834 and the anticipated interest paid is $1,427,123. The loan is scheduled to be paid in full by 2031.

---

30 Ibid. pg. 29.
31 Ibid. pg. 31.
32 Ibid. pg. 30.
Additional NSD liabilities include pension plans and other post-employment benefits for retirees. NSD contributes to the California Public Employees Retirement System (CalPERS) which provides various retirement to members and beneficiaries. For FY 2017-18 NSD employer contributions totaled $327,385. As of June 30, 2018, NSD had a total net pension liability of $5,544,711. NSD also pays a portion of the cost of health insurance for retirees under any group plan offered by CalPERS, subject to certain restrictions. In 2018 there were a total of 19 active place members and 34 retirees/beneficiaries receiving benefits.

Financial Planning/Capital Improvement
NSD provides a two-year Capital Improvement Budget for Board review and approval. This budget outlines projects scheduled to take place over the next two fiscal years and the funding mechanisms for each project. For the 2018-2020 budget, major projects include the North Bay Water Reuse Authority Phase 2 project implementation, which will be partially funded by the US Bureau of Reclamation WaterSMART program, capacity expansion of the Recycled Water Facility, and continued replacement of collection system components and laterals.

The largest cost centers for the Capital Improvement Program (CIP) are Collection System Improvements, budgeted at $2.45 million for FY 2018-19 and the Recycled Water Facility Expansion, budgeted for $2.02 million in FY 2018-19. CIP projects are reviewed on an annual basis and the Board is made aware of any changes for the upcoming fiscal years. Major initiatives are also identified in NSD’s annual financial audit. This allows NSD to adequately prepare and budget for needed system upgrades.

6.8 SUSTAINABILITY
Local agencies play a critical role in protecting natural resources and the environment through land conservation, water recycling, preserving open space, and renewable energy projects. NSD is working closely with other wastewater and water providers in the north bay region though the North Bay Water Reuse Authority. As discussed above in Section 5.5 – Recycled Water, NSD has already upgraded its recycled water capacity. Also, in the upcoming years, NSD will be working with the State Coastal Conservancy to potentially provide treated effluent to propagate and sustain a brackish marsh at the former Bel Main Keys V and Hamilton Air Force base sites.

The upgraded WWTP also decreased NSD energy use. It is estimated that approximately 528 MWh of energy is saved annually which equates to 373 metric tons of carbon dioxide equivalent saved. The NSD will continue to work towards its vision of “Collecting and transforming Novato’s wastewater and solid waste into more valuable resources.”

7.0 NOVATO FIRE PROTECTION DISTRICT

7.1 OVERVIEW
The Novato Fire Protection District (FPD) was established in 1926 as an independent Special District from what was originally a volunteer fire department. The Novato FPD boundary encompasses 72 square miles in northern Marin County, California. This includes all of the City of Novato and surrounding unincorporated areas to the east, north, and west. The District has a population of approximately 66,000 persons. The last Municipal Service Review for the FPD was conducted in fall 2007 as part of the Novato Area Periodic Update.

Currently, the primary FPD function is to provide structural fire and emergency medical response to the City of Novato and surrounding areas as shown in Figure 7-1. The FPD also participates in many automatic and mutual aid agreements with nearby fire districts and responds to wildland fires as needed. The main administration building is also the site of the City of Novato and Novato Fire Protection District Joint Emergency Operations Center (EOC) during major disasters.

The FPD has close community ties and many of its members voluntarily support a number of Novato Fire Foundation programs including youth programs, toy drives, and education activities. As part of its community outreach program, the FPD hosts an annual open house and Art and Wine Festival where the community can visit any station to view equipment and interact with personnel.

7.2 FORMATION AND DEVELOPMENT
Novato FPD formation was the result of community interest to provide basic services even before the town of Novato was created. Prior to the FPD, a small volunteer fire department, formed in 1894, served the area with hose carts and a chemical engine. After Novato was granted township, the FPD was established and its first commissioners appointed on July 7, 1926. It was established as an independent Special District whose legal authority and responsibilities are contained in the State of California Health and Safety Code Sections 13800 – 13970.

39 Marin County Board of Supervisors, Regular Meeting Minutes, July 7, 1926, pg. 134.
7.3 DISTRICT BOUNDARY AND SPHERE OF INFLUENCE

Novato FPD’s service boundary, which currently encompasses 70 square miles includes all of the City of Novato and outlying areas east to San Pablo Bay and up to the Sonoma County line. The current Sphere of Influence encompasses 69.5 square miles. In 1977 the Hamilton Air Force Base was detached from the FPD boundary, however, in 1999 the Ninth Circuit U.S. Court of Appeals determined that the detachment was not valid. In 2009, Marin LAFCo rescinded the action on the “Hamilton Field and Rafael Village Detachment” with LAFCo Board Resolution No. 09-03. This action rescinded the FPD boundary change but did not account for the SOI which was determined after the 1977 decision. Therefore, the FPD boundary is currently larger than the SOI.

There are County and City designated land uses in and around the FPD’s service boundary. Within the City of Novato boundary, land use authority falls under city jurisdiction. Unincorporated areas within the District are subject to Marin County Land use authority. Land use within the city is predominantly residential but also includes commercial and mixed-use areas; business and industrial areas; and community and natural resource lands. The predominant land uses in unincorporated district territory are generally comprised of agricultural, public facility, open space, rural residential, and low-density residential lands Figure 7-2.

7.4 MUNICIPAL SERVICES

Fire Protection and Emergency Response
The FPD provides fire protection, emergency response, and paramedic services. Incident call types include emergency medical response, fire, service calls, good intention calls, natural disasters, and hazardous materials/conditions. The District has five stations with personnel covering three shifts. Each shift has one Battalion Chief, five Captains and five engine companies including a cross staffed truck and Type 3 engines. Staffing includes two front line paramedic ambulances, each staffed with two firefighter/paramedics. The District also has a Risk Reduction, Prevention, and Mitigation division, as well as Training and EMS divisions.

Novato FPD has been awarded a Class 1 Public Protection Classification rating by the Insurance Services Office (ISO), an organization that independently evaluates municipal fire protection efforts throughout the United States. An ISO rating of 1 is the highest possible that can be given to any fire department using this metric. Insurance companies often use ISO information combined with other factors to establish local property insurance rates – generally offering lower fire policy premiums in communities with better protection.

The FPD receives an average of 5,259.5 calls per year (2008 – 2018) with the majority being for Rescue/ Emergency Medical. The call volume has increased steadily over the last five years.

---

40 City of Novato General Plan 2035. 2016. Pg. 1-4
41 Novato Fire Protection District, Comprehensive Annual financial Report for the Year Ended June 30, 2018, pg. 78.
from 4,888 calls in 2013/14 to 5,996 in 2017/18. A summary of call numbers over the last 10 years is shown below in Figure 7-3.

Figure 7-3: Novato FPD Total Calls per Fiscal Year

During FY 2017-18 the FPD responded to 5,996 incidents. Of these, 68 percent were for emergency medical services and 2 percent were for fires. The average reported response time was 5 minutes 35 seconds for emergency medical services and 7 minutes 11 seconds for fires. A summary of incidents and response times is provided below in Figures 7-3 and 7-4.

Figure 7-4: Novato FPD Response Times by Incident Type (2018)

---

42 Ibid.
44 Ibid.
The FPD currently contracts with the Marin County Sheriff’s Department for dispatch services. Additionally, the City of Novato dispatch will route calls that come in for structural fire and/or medical services to the County Sheriff’s Department. This helps ensure that services are provided efficiently throughout the FPD service area.

**Facilities and Apparatuses**

The FPD owns, operates and maintains one administrative building and five stations as listed below:

- Administration Building - 95 Rowland Way, Novato, CA 94945
- Station 61 - 7025 Redwood Boulevard, Novato, CA 94945
- Station 62 - 450 Atherton Avenue, Novato, CA 94945
- Station 63 - 65 San Ramon Way, Novato, CA 94945
- Station 64 - 319 Enfrente Road, Novato, CA 94949
- Station 65 - 5 Bolling Drive, Novato, CA 94949

A facilities assessment was conducted in 2014 for all FPD owned buildings. The assessment identified the current building status and upcoming repair and/or replace needs. Station 64 was not included in this assessment as it was being rebuilt at the time of the assessment.

During the assessment, many of the buildings were found to be in fair to good condition with lifecycle replacements of building systems needed within the next 10 years. Having these assessments allows the FPD to plan ahead for major facility upgrades. Currently, the FPD is

---

46 EMG, Facility Condition Assessment of - Administration Building, Fire Station 61, Fire Station 62, Fire Station 63, Fire Station 65, 2014.
looking to renovate Station 62 which is also used for training. Renovations will include a new training tower and updated classrooms.

The FPD has a variety of apparatus that serve the community ranging from support vehicles to paramedic trucks. The FPD’s apparatus listed by station is provided below.

Station 61: Type 1 engine, Ambulance, Water Tender, B/C Command vehicle, Reserve Ambulance, Off-Road Utility, Reserve Type 1 Engine

Station 62: Type 1 Engine, 1 Reserve Type 1, 1 Ambulance, Golf Cart

Station 63: Type 1 engine, Type 3 engine, 1 Reserve Ambulance, Off-Road Utility

Station 64: Type 1 engine, Ladder Truck, Ambulance

Station 65: Type 1 engine, Type 3 engine, Medium Duty Rescue Unit, Off-Road Utility

Additionally, the Risk Reduction Prevention and Mitigation Division (RPM) utilizes several SUVs for inspections, investigations, and fire response. For Public Education purposes, the District maintains a utility vehicle and a golf cart. There are two pool vehicles (a hybrid car and a 12-passenger van) utilized for administrative needs.

The FPD utilizes a Vehicle Replacement Plan to ensure that all vehicles remain in sound working order and are replaced when needed. Operations vehicles are replaced based on years of front-line service and are then placed in reserve. Table 7-2 summarizes the service time for each vehicle type. Having a Vehicle Replacement Plan allows the FPD to adequately plan for upcoming replacement costs and ensures that service needs can be fulfilled.

---

47 Chief Bill Tyler, Personal Communication, June 5, 2019.
Other Service Providers
The FPD is a member of the Marin Emergency Radio Authority (MERA) which is a countywide public safety and emergency radio system that allows emergency response agencies to communicate effectively with each other.

The FPD jointly operates the EOC with the City of Novato at the FPD administrative office. During a major emergency or disaster, the EOC provides a central location of authority and information with face-to-face coordination among personnel.

To the north of Novato is the City of Petaluma which provides emergency response services in Sonoma County and participates in an automatic aid agreement with the FPD for the response to wildland fires in the Mutual Threat Zone. To the south of Novato is the San Rafael region which has multiple emergency response agencies including Marinwood CSD, adjacent to the FPD boundary, and the City of San Rafael.

Several automatic and mutual aid agreements are in place to ensure a high level of service to area residents. The FPD currently has agreements with Lakeville Volunteer Fire Company; Marinwood Community Services District; Petaluma Fire Department; San Antonio Volunteer Fire Company; Marin County Fire Department. The FPD also is a party to a Mutual Threat Zone agreement with CalFire, Marin County Fire Department, and Sonoma County Fire – San Antonio that outlines a joint response to vegetation fires in the area of Highway 101 near the Sonoma and Marin County line. In the event of extraordinary events, the FPD is also party to the Marin County Fire Chiefs Mutual Aid Agreement which provides for county-wide mutual assistance and mobilization during emergencies.

Additional public services in the area include water service provided by the North Marin Water District and sewer service provided by Novato Sanitary District. The City of Novato provides a range of municipal services including parks and recreation and police services.

7.5 ORGANIZATION STRUCTURE

Board of Directors
The Novato FPD has a five-member board that is elected to a four-year term. Elections for Board members were previously held at large in the FPD but are now transitioning to by-district elections so that each Board member will represent a specific area within the FPD.

The Board of Directors maintains current certificates for the CA Local Agency Ethics and California Sexual Harassment Prevention for Supervisors programs. Certificates for each of the board members can be found on the FPD website.

According to the Board of Directors’ policy (Policy 223), members are paid a sum of $100 per meeting, workshop, study session, special meeting, and committee meeting up to a maximum of $400 per month. Information on meeting dates and payments is provided on the FPD website.

The Board of Directors is guided by Policy 223 which provides general duties of the board, roles and responsibilities, and training, both required and suggested.

Staffing and District Operations
The FPD currently staffs 78 employees working at five fire stations and one administrative building. Stations are regularly staffed with a combination of battalion chiefs, captains, engineers, firefighter/paramedics.

Currently, the FPD is seeking to fill vacancies in their RPM Division. Additional staffing positions that are desired, but do not yet have funding, are for a Wildfire Mitigation Specialist and a Training Captain. The Wildfire Mitigation Specialist would be responsible for conducting hazard assessments, providing vegetation management assessment and prescriptions, and drafting fuel reduction plans for the wildland-urban interface areas of the FPD. The Training Captain would be responsible for creating and implementing a fire training program. The FPD is currently looking into long-term strategies to fund these additional positions.

---

7.6 ACCOUNTABILITY AND TRANSPARENCY
Over the past several years, the FPD has made it a priority to maintain high accountability and transparency with all its activities. The FPD website (www.novatofire.org) provides information on Board meetings, financial reports, stations, history, employment, and more.

Meetings and Agendas
The FPD Board meets on the first Wednesday of every month at 6:00 pm at Fire Station 61 located at 7025 Redwood Boulevard in Novato. Special meetings are held as needed to go over specific topics such as the annual budget. Meeting agendas and minutes can be found on the FDP website (www.novatofire.org).

Annual Budget Review
The FPD prepares and adopts annual budgets covering revenues, operating, and capital expenses and fund balances. The FPD takes into consideration five distinct divisions when preparing the annual budget: Emergency Medical Services, Risk Reduction Prevention & Mitigation, Operations, Organization Resources & Support, and Training. The FPD vision statement is “To position the Fire District operationally and financially to create a sustainable future”.

7.7 FINANCIAL OVERVIEW
Almost all annual district revenue (84%), comes from property taxes. Additional revenue comes from service charges, State and Federal Government aid, sale of assets, California Office of Emergency Services reimbursements, ambulance billing, and other miscellaneous sources. The FDP aims to provide a high level of community service while maintaining sustainable fiscal practices. As is shown in Table 7-4, the past three years of audits show budget surpluses that help build the general fund.

Revenue
Revenue sources for the FPD come primarily from a portion of the 1% property tax and a parcel tax originally approved by voters in 1991 and later amended in 2002. Of the 1% property tax, the FPD receives an average of 17.3% which amounts to approximately $19.5 million for FY 2017-18. The voter-approved parcel tax amount, which has no sunset date, is inflation-adjusted every year by the Board. For FY 2018-19 the parcel tax rate is 9.16 cents per square foot for residential parcels and 13.73 cents per square foot for commercial/industrial parcels. The FY 2017-18 tax rate was set at 8.87 cents per square foot residential and 13.30 cents per square foot commercial/industrial which amounted to approximately $5.4 million for the FPD.

Other sources of revenue for the district include but are not limited to, service charges, capital grants and contributions, investment earnings, impact fees, and Office of Emergency Services reimbursements. The FPD financials summary can be found in Tables 7-4 and 7-5.

**Debt**

The FPD expends approximately $750,000 per year on debt service including principal and interest payments. Current debt obligations include the administration building mortgage and loan payments for Station 64 construction which was completed in September 2015. As of June 30, 2018, the FPD had approximately $3,315,000 in outstanding debt.

The FPD also provides a pension plan for employees and is part of the Marin County Employees’ Retirement Association (MCERA). MCERA provides retirement, disability, and death benefits based on the employee’s years of service, age, and final compensation. As of June 30, 2017, the FPD Net Pension Liability was $18,451,828 which is a decrease of approximately $3.3 million from the prior year. The FPD pension funded ratio is 89.2% which is among the highest ratio for fire districts. In addition to the pension plan, the FPD provides post-retirement health care benefits to its retirees. For FY 17-18 the FPD contributed $1,502,716 to the plan which has 73

---

56 Ibid. pg. 9308-12.
active members and 90 inactive employees or beneficiaries that are currently receiving benefit payments.

The FPD maintains a District credit card with a credit limit of $175,000. As of July 11, 2018, the available credit was $164,490. The card balance is typically paid in full every month so that no interest is accrued.

**Financial Audit**

The Novato FPD contracts with an outside accounting firm, currently Maze & Associates, to prepare an annual report for each fiscal year to review the District’s financial statements in accordance with established governmental accounting standards. The most recent audited financial statement was prepared for the fiscal year ending June 30, 2018.

**Financial Planning/Capital Improvement**

The FPD maintains several designated reserve accounts as shown in Table 7-6. The FPD also maintains a committed fund that provides contingency funding in situations where actual revenue is 15% or more below expected revenue, or when a state of emergency is declared by the District Board or County of Marin for an area that falls within District boundaries. As of June 30, 2018, the balance for that fund was $4,199,942.

7.8 WILDLAND FIRE PREPAREDNESS

Local agencies such as the Novato FPD play a critical role in protecting natural resources and the environment. Extended periods of drought, changing climate patterns, wind and low humidity have the potential to increase the occurrence and severity of wildland fires which could threaten structures and lives in the Wildland Urban Interface.

The FPD participated in the Community Wildfire Protection Plan that was released in 2016. This was a collaborative effort among fire agencies in the county, local fire organizations including FIRESafe Marin, land management agencies, and community stakeholders. Through this effort, areas of concern throughout the county were identified based on population, fire behavior, vegetation, and other factors. Additionally, several goals were stated and associated action items were created to better prepare the county for wildland fires. One such goal is to “Increase awareness, knowledge, and actions implemented by individuals and communities to reduce human loss and property damage from wildland fires, such as defensible space and fuels reduction activities, and fire prevention through fire safe building standards”59. The FPD is working towards providing more education to the community about this topic and staffing of the RPM Division would further aid in the implementation of this goal.

---

59 Marin County Fire Department and FIRESafe Marin, Community Wildfire Protection Plan, July 2016, Appendix D.
8.0 BEL MARIN KEYS COMMUNITY SERVICE DISTRICT

8.1 OVERVIEW

The Bel Marin Keys Community Services District (CSD) is located in the southeast Novato region between Highway 37 and Highway 101 and is accessed by Bel Marin Keys Boulevard. Within the westerly portion of the CSD is a unique community with lagoons that provides water access and recreation to Bel Marin Keys residents. It also maintains two locks that provide access to Novato Creek which flows into San Pablo Bay. The easterly portion of the CSD is California State Coastal Conservancy land with San Pablo Bay frontage that is part of the larger Hamilton Wetlands Restoration effort.

<tr>
<td><strong>Formation Date</strong></td>
</tr>
<tr>
<td><strong>Services Provided</strong></td>
</tr>
<tr>
<td><strong>Service Area</strong></td>
</tr>
</tbody>
</table>

The CSD provides a multitude of community services either directly or through contracts. Services and facilities include, but are not limited to, Novato Creek maintenance dredging, north and south lagoon maintenance, maintenance and operation of marine infrastructure assets, operation of a community center complete with kitchen and bar, four boat ramps of which three can be accessed by residents, eight parks, six open space areas, two islands, and street lighting maintenance. Water, wastewater, and fire services are provided by other agencies.

Services and facilities listed above require planning, budgeting, and in some cases permitting. Major projects such as levee maintenance and dredging require coordination with several agencies and stakeholders to ensure compliance with state and federal regulations. The CSD manages these projects and regular maintenance activities with a small staff and contract management services.

Date: 6/24/2019
8.2 FORMATION AND DEVELOPMENT
Bel Marin Keys CSD was formed in 1961 to provide services for the new Bel Marin Keys housing development. Basic infrastructure was purchased by Marin County, after construction by the developer, using proceeds from the sale of serial bonds. Once initial construction of infrastructure was completed, certain systems were conveyed from the County to the appropriate agency. Lagoons were transferred to the CSD, the water supply system was transferred to the North Marin Water District and the sewer system was transferred to the Novato Sanitary District.

In 1980, approximately 90 acres to the south of the original CSD was annexed for the development of Bel Marin Keys Unit IV. There were plans to develop additional land to the south and east as Bel Marin Keys Unit V. However, after years of deliberation, the parcels were purchased by the California State Coastal Conservancy and are now part of a greater wetland restoration effort taking place in the region.

8.3 DISTRICT BOUNDARY AND SPHERE OF INFLUENCE
Bel Marin Keys CSD’s jurisdictional boundary is larger than its current sphere of influence. The boundary includes the Bel Marin Keys housing development, portions of Novato Creek, and California State Coastal Conservancy lands bordering San Pablo Bay. The boundary encompasses a total of 990 acres and the SOI encompasses a total of 855 acres.

8.4 POPULATION AND GROWTH
Bel Marin Keys is located in Census Blocks 1001, 1001, 1005, and 1006 of Tract 1043 in Marin County. According to the 2010 US Census, these blocks had a total population of 1,530. Since the sale of Bel Marin Keys V to the California Coastal Conservancy, there is no longer potential for further development in the area.

8.5 MUNICIPAL SERVICES
The CSD currently provides several services to the community including lagoon maintenance, marine infrastructure operation and maintenance, dredging, and parks and recreation. The CSD also owns and maintains a community center equipped with a full kitchen, bathrooms, and a bar. Additionally, the CSD provides street lighting through a contract with DC Electric.

Lagoon Maintenance
After initial waterways construction by developers, the lagoons were turned over to the CSD for management and maintenance. Waterways are tested for pathogens, in accordance with County of Marin Recreational Standards, once a month typically when a lagoon flushing event occurs. The lagoons are mechanically maintained at prescribed set water elevations and water quality is maintained by exchanging water (flushing) to and from Novato Creek. A flushing schedule is

---

60 Marin County Board of Supervisors, Resolution 6981, October 24, 1961.
61 Marin County Board of Supervisors, Resolution 6980, October 24, 1961.
62 Ibid.
posted in the quarterly newsletter and signs are posted at the navigation locks to advise residents not to enter waters near the lock areas when flushing is occurring. Additional lagoon maintenance includes monthly inspection of buoys, regular inspection of the CSD’s four boat ramps, debris removal, aquatic vegetation control, CSD dock inspections, and easement compliance along with other water-related maintenance items.

There are two navigation locks owned and maintained by the CSD. The south lock was originally built in 1985 and the north lock was built in 1974. These locks maintain and allow for lagoon water level management within the CSD while providing residents Novato Creek access. They also assist with seasonal flood control. The locks are operated by a controlled access system that residents receive after going through training on how to use the system.

In addition to lagoon maintenance, the CSD surveys Novato Creek performs debris removal in the creek and has previously conducted dredging to maintain adequate navigational depths and removal accreted materials from flood control structures.

The CSD also maintains the levee surrounding the south lagoon which is an 11,000-foot-long levee owned by the California State Coastal Conservancy (SCC) and bordering SCC land known as BMK V. The BMK V development was originally going to provide tax income for south levee maintenance. Now that the SCC owns the land, there is no revenue to support this maintenance. The CSD is currently working with the SCC to address levee improvement funding specific to cost incurred by the CSD. There is a project scheduled to be undertaken by the SCC in summer 2019

**Dredging**

The CSD is responsible for dredging areas of the Bel Marin Keys lagoons and Novato Creek for water quality, flood control, and watercraft access. Maintenance dredging as undertaken requires planning, financing, permitting, dredging, and dredge material placement.

**Planning**

The last dredging event conducted by the CSD in Novato Creek was in 2005. The last dredging of the north lagoon was conducted in 2007. There are areas within the north lagoon that have a propensity for sediment accretion and as such, the CSD monitors and will conduct maintenance dredging as needed and budgets allow. Novato Creek is ideally dredged on a 20-year cycle although there is no specific funding for this.

A detailed October 2017 hydrographic survey mapped the Novato Creek channel with contours and comparisons to December 2013 and July 2016 hydrographic surveys to depict channel

---

63 California State Coastal Conservancy, Projects, San Francisco Bay Area: https://scc.ca.gov/projects/san-francisco-bay/.
changes. The 2017 survey results provide information on where future dredging activities may need to take place.

**Financing**

The District funds dredging activities for the lagoons through Measure D that was passed in 2001 and is discussed in further detail under Finances. Planned 2019 dredging activities include portions of Novato Creek around flood control structures which will be funded by Measure D. Other creek areas are currently not funded through Measure D. The last Novato Creek channel dredging, completed in 2005, was funded through bond Measure F which is also discussed below.

**Permitting**

In 2017 the CSD applied to the US Army Corps of Engineers for a 10-year maintenance dredging permit that included North Lagoon and portions of Novato Creek. The CSD is still operating under this permit and continues to work with other regulatory agencies such as the San Francisco Bay Regional Water Quality Control Board and the San Francisco Bay Conservation and Development Commission.

**Dredging Activities**

The CSD procure dredging services under public contracting guidelines as discussed under Contracting below. Prior dredging, summarized in Table 8-2, has utilized hydraulic dredge methods to remove build-up sediment. The dredged material is then pumped through a slurry pipeline and deposited at the nearby disposal site discussed below.

**Table 8-2: Bel Marin Keys Dredging History**

**9.0 Dredge Disposal**

Dredged material from both the lagoons and the creek has been deposited on a 22-acre parcel owned and operated by the CSD to the west of Bel Marin Keys permitted as a Dredged Materials Management Site (DMMS). The DMMS is adjacent to and runs along the north edge of Bel Marin Keys Boulevard across from Pacheco Pond. This parcel is outside of the CSD boundary.

---

65 CLE Engineering, Novato Creek Condition Hydrographic Survey- October 2017, January 5, 2018.
67 Ibid.
Parks and Recreation
The CSD owns 37 parcels within its boundary, many of which are maintained as park or open space areas. There are currently eight parks, six open space areas, and two islands. In 2012 county voters approved a sales tax (Measure A) to help fund park and recreation improvements in Marin County. The CSD receives an apportionment of those tax funds for Bel Marin Keys park and open space improvements.

The CSD held a community meeting to identify priority areas for Measure A funding and developed a timeline of improvements for many of the parks. The highest priority park identified by the community meeting was Montego Park. Residents indicated that a new multipurpose court and bocce ball course were desired. Replacement of existing tennis courts was completed in 2018 and other park and open space facilities will continue to be upgraded as funds become available.

The CSD offers play equipment in several park areas and has recently expanded its All Ages Fitness areas. These areas offer workout stations that include sit-up stations, chin-up bars, cycling, and other equipment to help promote fitness for all ages and abilities.

A continuing issue with park facilities, including Montego Park, is drainage. Flooding occurs in areas during high rainfall and limits accessibility to park facilities. The CSD has utilized pumps in the past to keep park areas free of water and is currently working on drainage upgrades that will provide a long-term solution to flooding issues.

Park and other landscaped areas are maintained through a contract with an outside company. The annual cost of landscaping in the CSD is approximately $60,000. Additional areas maintained by the CSD include a moat, two front entry areas, a parking lot, two offices, and a community center.

9.2 ORGANIZATIONAL STRUCTURE

Board of Directors
Bel Marin Keys was formed as an independent special district and maintains a five-member Board of Directors elected to serve four-year terms. A current list of Board members is provided below in Table 8-3. Board members receive compensation of $100 per meeting for their participation.

Table 8-3: Bel Marin Keys Board of Supervisors

</tbody>
</table>
**Staffing and District Operations**

The CSD has one full-time staff member and one part-time staff member. Other staffing services, including a waterways manager, is provided by contract through Foth-CLE Engineering Group, LLC that is renewed every five years. Annual contract services are approximately $120,000 for waterways management, $100,000 for engineering and permitting, and $20,000 for parks design and engineering.

**9.3 ACCOUNTABILITY AND TRANSPARENCY**

**Meetings and Agendas**

Board meetings are held the third Thursday of every month at the Community Center at 4 Montego Key in Novato. Board meeting agendas and minutes are posted on the CSD website for public access (http://www.bmkcsd.us/agendas).

**Annual Budget Review**

The CSD provides an annual budget to the Board for review and consideration. Separate budgets are prepared for the general obligation fund and Measure D funds. The CSD has a Measure D oversight subcommittee that meets semi-annually to accurately track and report the revenue and expenditures for Measure D which is specifically for lagoon maintenance. Separate reporting is conducted on Measure A in accordance with Marin County requirements. An independent financial auditor conducts an annual audit of the CSD’s financial statements. The last audit, by R.J. Ricciardi, Inc., was conducted for the fiscal year ending June 30, 2018. Budgets and audits can be found on the CSD’s website.

**9.4 FINANCIAL OVERVIEW**

Bel Marin Keys CSD is funded through a portion of the ad valorem property tax for properties served, two bond measures, and one parcel tax passed by voters in the CSD. Primary expenditures are for lagoons, marine infrastructure, Novato Creek, and park maintenance. See Table 8-4 for District revenues and expenses. Notably, in Fiscal Year 2017-18, the District had a significant increase in expenses. This is attributed to several unexpected capital outlay expenses for a culvert replacement and new tennis court. Such expenditures are not expected to be an annual occurrence in the future.

**Revenues**

The main source of revenue for the CSD is a portion of the ad valorem property tax collected and distributed by the County of Marin, special taxes, and bond measures (Measures A, D, E, & F) approved by voters living in the CSD boundary, or in the case of Measure A, the county. Taxes account for 99% of the CSD revenues with the other 1% coming from investment income and other revenue.
Measure A is a countywide measure that was approved by voters in 2012 and applies a one-quarter cent sales tax in order to fund county park areas. Once passed, the measure would be effective for nine (9) years making the sunset date November 2021. The CSD receives a portion of this tax to fund maintenance and improvements to park areas. In FY 2017-18 the total revenue from Measure A was $57,461.

Measure D was passed by voters in November 2001 and levies a Parcel Tax that increases at a rate of 2% every year with no sunset date to provide regular long-term revenue for the CSD. This tax is to be used for operation and maintenance of the CSD’s marine facilities. In FY 2017-18 the total revenue from Measure D was $481,488.

Measure E was passed by voters in November 2001 and allowed for the issuance of $2,600,000 in special tax bonds to finance improvements to the CSD’s shared and public marine facilities for Community Facilities District No. 2001-1 (Marine Facilities Improvements). The bonds are to be repaid by a special tax levied on properties in CFD No. 2001-1 that is not to exceed $385 per parcel. In FY 2017-18 the total revenue from Measure E was $227,643 which was then passed through for loan payments. Once the bond refinancing loan is repaid, the special tax will no longer be levied.

*This includes employee benefits and director fees.

Measure F was passed by voters in November 2001 and allowed for the issuance of $5,600,000 in special tax bonds to finance improvements to the CSD’s marine facilities for CFD No. 2001-2 (Dredging and Marine Improvements). More specifically, the bonds funded dredging of lagoons and Novato Creek, training walls in Novato Creek, water circulation system upgrades, and necessary extensions of private and public docks and piers. The bonds are to be repaid by a special tax levied on properties in CFD No. 2001-2 according to their area designation. Maximum annual tax rates range from $330 to $1,131. In FY 2017-18 the total revenue from Measure F was $455,495 which was then passed through for loan payments. Once the bond refinancing loan is repaid, the special tax will no longer be levied.

Measures D, E, And F were all proposed and passed in 2001 in order to provide needed funding for the CSD. Prior to these measures, there was not enough revenue to cover rising maintenance activities costs. Measure D now provides a long-term source of income for maintenance activities.

---

71 Ibid, Ballot Measure F.
including water testing, lock maintenance, maintenance dredging, and annual management of the
waterways. Measures E and F provided bond funding for large capital improvement projects and
major dredging that was needed at the time. For FY 2017-18 Measure D taxes were $686.38 per
parcel, Measure E taxes were $350.76 per parcel, and Measure F taxes ranged from $287.26 to
$984.52 per parcel depending on location. The total CSD taxes for these measures totaled
$1,321.40 to $2,021.66. This does not include basic property tax or Measure A estimates.

Debt
The CSD has a long-term lease-finance agreement with PG&E with a loan balance of $19,084 as
of June 30, 2018, and two commercial loans with the Bank of Marin to re-finance Measure E and
F Special Tax bonds. Those loans had a combined balance of $2,698,165 as of June 30, 2018.

Contracting
The CSD participates in the California Uniform Public Construction Cost Accounting Program.
Under this program, the CSD maintains an Informal Bid List of contracts that receive notices on
projects taking place within the CSD. This program allows for contracting flexibility that eases
costs to the CSD while still maintaining a competitive bid process.

Long-term Planning
The CSD is currently preparing a Capital Improvement Plan which is set to be finalized by Fall
2019. This plan will identify priority needs for the CSD and provide a schedule of improvements
for several fiscal years allowing the CSD to plan ahead for future improvements.

9.5 SUSTAINABILITY
Bel Marin Keys has been working with residents on sustainable practices for both land and water.
Community groups come together to help reduce household carbon footprints and the CSD has
offered Clean and Green Boating seminars. Boating seminars include education of effective spill
cleanup, safe fueling practices, reducing marine debris and proper sewage disposal.

Neighborhood groups have also worked with other organizations including the Greenbelt Alliance,
Marin Conservation League, and Sierra Club to gain voter approval on laws that limit urban sprawl
and maintain open spaces for community benefit.

Flooding remains an important issue to the CSD as high spring rain levels have caused levee
breaches in adjacent neighboring parcels. The CSD will continue to work with other local agencies
in order to identify critical needs and conduct flood control projects.

10.0 COUNTY SERVICE AREA NO. 1 (LOMA VERDE)

10.1 OVERVIEW
CSA No. 1 is located south of Ignacio Boulevard as shown in Figure 9-1. The northerly developed Loma Verde neighborhood and Loma Verde Elementary School portions are unincorporated and the southerly Loma Verde Preserve portion is in the City of Novato. The neighborhood, which is completely surrounded by the City of Novato, is made up of mostly single-family homes with some apartments and townhomes. The main roads through the CSA are Alameda De La Loma which runs east and west, and Alameda Del Prado that runs parallel to Highway 101.

The CSA provides street light maintenance throughout the unincorporated area through a contract administered by the Marin General Services Authority, meridian maintenance along Alameda Del Prado, and has acquired open space for the county.

10.2 FORMATION AND DEVELOPMENT
CSA No. 1 was formed by Marin County Board Resolution No. 4294 on January 1956 in order to provide County services to the area. Upon formation, no designation of specific services was made. In later years, specific resolutions were made to define services as lighting and parkway maintenance. In 1974 additional parcels were annexed to the CSA in order to provide open space for the community. This land acquisition was funded by the sale of bonds that were repaid by a special tax levied on properties within the CSA. Bonds were originally set to mature no later than 1995, at which point taxes would no longer be collected for bond repayment.73

73 Marin County Board of Supervisors, Resolution No. 75-74, March 18, 1975.

10.3 DISTRICT BOUNDARY AND SPHERE OF INFLUENCE

CSA No. 1’s jurisdictional boundary encompasses approximately 503 acres. The sphere of influence is coterminous. The original boundary encompassed only the Loma Verde neighborhood. In 1974, approximately 100 acres of land, now known as the Loma Verde Preserve, was annexed to the CSA for open space land acquisition and management. At the same time, the open space land was annexed, the original CSA boundary was designated as a CSA improvement district where taxes could be levied for services provided.\(^74\)

The Loma Verde neighborhood and elementary school are not part of the City of Novato. However, the surrounding open space is within the City. Land use in and around the CSA is primarily Open Space Low-Density Residential and public facility for the elementary school site.

10.4 MUNICIPAL SERVICES

Street Lighting and Maintenance

The County contracts with a private landscaping firm that provides services for many different areas in the region. Included in this larger contract is a small portion for landscaping maintenance of Alameda Del Prado in CSA No. 1. From Ignacio Boulevard to Posada Del Sol there is a meridian down Alameda Del Prado with trees, shrubs, and flowering plants that require regular maintenance. A maintenance schedule summary is provided below in Table 9-2.

There are approximately 101 street lights in CSA No. 1 maintained as part of the Marin County Street Light network through a county contract with DC Electric that is funded and administered by the Marin General Service Authority. The original contract was entered into in August 2015 and is renewed annually. Under this contract, lights are replaced every five years or more.

---

\(^{74}\) Marin County Board of Supervisors, Resolution No. 74-129, May 7, 1974.
frequently as needed. Other street maintenance is overseen by the County Department of Public Works.

**Recreation (Open Space Acquisition)**

Loma Verde Preserve is south of the Loma Verde neighborhood. The preserve covers the northeast slope of Big Rock Ridge and offers dog-friendly hiking and horseback riding. It can be accessed at several points in CSA No. 1 including Pebble Beach Drive, Winged Foot Drive, Via Escondida, and Posada Del Sol. Many other footpaths also lead off of neighborhood streets into the preserve.

As discussed previously, the preserve was purchased with bond funds through CSA No. 1. It is approximately 100 acres in size and adjoins Ignacio Valley, Pacheco Valle, and Marinwood to provide large contiguous open space access for area residents. The Marin County Department of Parks and Open Space now manages the Loma Verde preserve as part of its open space system. A map of the preserve and connecting trails is provided in Figure 9-3.

*Figure 9-3: Loma Verde Open Space Preserve Map*75

10.5 ORGANIZATIONAL STRUCTURE

Board of Directors
CSA No. 1 was formed as a dependent special district with the Marin County Board of Supervisors as its governing body. The five county supervisors are elected to four-year terms of office with no term limits. Government Code Section (25212) grants the Board of Supervisors rights and powers to administer service areas.

The Board of Supervisors meets the second and fourth Tuesday every month at 9:00 a.m. in the County of Marin Civic Building located at 3501 Civic Center Drive, Suite 329 in San Rafael. A current listing of members along with respective backgrounds can be found below in Table 9-3.

</tbody>
</table>

Staffing and District Operations
As a dependent special district of the County, all administrative services are provided by county departments, including legal counsel and compilation of financial transaction reports for the State Controller’s Office required under Government Code Section (53891). District projects are overseen by county senior and principal engineers.

CSA No. 1 is primarily managed by the Department of Public Works which oversees the street lighting contract which is primarily held by the Marin General Services Authority. The Department of Parks and Open Space manages the meridian maintenance contract and the open space is managed as part of the county’s broader open space program.

10.6 ACCOUNTABILITY AND TRANSPARENCY
Meetings and Agendas
The Board of Supervisors meeting agendas, minutes, and recordings can be found online on the Marin County website. Board documents such as resolutions and ordinances can also be found on the Board of Supervisors page of Marin County’s website.
Annual Budget Review
The County of Marin contracts with an independent financial auditor, Clifton Larson Allen, to conduct an annual financial report. CSA No. 1 is included in the report under the Budgetary Comparison Schedule for County Service Areas Fund. The latest audit was prepared for the year ending June 30, 2018.

Every year the County Department of Public Works develops a CSA budget and presents it to the Board of Supervisors for review and approval. It is based on prior years’ expenses and anticipated upcoming fiscal year infrastructure upgrades and maintenance costs.

10.7 FINANCIAL OVERVIEW
CSA No. 1 is funded through a portion of the ad valorem property tax for properties served. Properties taxed are those within the original CSA boundary which was designated an improvement district of the CSA in 197476. The taxes collected are solely for meridian maintenance. The open space portion of the CSA receives funding and management through the County Department of Parks and Open Space. Street lighting is funded by the Marin General Services Authority.

76 Marin County Board of Supervisors, Resolution No. 74-129, May 7, 1974.
Maintenance of the Alameda Del Prado meridian costs the CSA approximately $982 per month ($11,784 per year) depending on monthly service activities. This is a small portion of the approximately $26,433 monthly County landscaping contract. All other CSA activities are funded by other county sources including the Marin General Services Authority and the Marin County Department of Parks and Open Space. This allows the CSA to grow and maintain a healthy fund balance that can be used for emergency repairs or other unforeseen costs as needed.

Sustainability
Local agencies play a critical role in protecting natural resources and the environment through land conservation, water recycling, preserving open space, and renewable energy projects. CSA No. 1 provides ample open space for community residents to enjoy and utilizes water-efficient landscaping to reduce municipal water consumption. In addition, street lights were updated to LED lights in 2011 to decrease CSA and county energy usage.

---

78 Gardeners’ Guild, County of Marin – Parks, Open Spaces & Cultural Services Landscape Maintenance, May 2019 Invoice.
11.0 COUNTY SERVICE AREA NO. 20 (INDIAN VALLEY)

11.1 OVERVIEW
CSA No. 20 is located in the southwest Novato region and provides open space-related services. It encompasses over 7 square miles of both incorporated and unincorporated territory that includes the Indian Valley and Ignacio Valley Open Space Preserves which are managed by the Marin County Department of Parks and Open Space.

The CSA conducts special projects in open space areas within the CSA boundary. This includes improved trails, access, and wildland fire prevention measures for the Marin County Club and Indian Valley communities.

</tbody>
</table>

11.2 FORMATION AND DEVELOPMENT
CSA No. 20 was formed by Board Resolution 74-371 in November 1974. The types of services designated by the Board at the time of formation were “Local park and recreation facilities and services”. The CSA was partially funded by a bond in 1975 for the acquisition of 1,300 acres. The bonds were scheduled to be paid in full by 199579.

11.3 DISTRICT BOUNDARY AND SPHERE OF INFLUENCE
CSA No. 20’s jurisdictional boundary encompasses 4,620 acres of land. Portions of the CSA are within the City of Novato boundary and subject to the City’s Zoning. The sphere of influence is coterminous. Primary land use designations in the CSA area are Open Space, Low-Density Residential, Conservation, and Agriculture with some Community Facilities and Planned Residential. The CSA boundary surrounds the College of Marin – Indian Valley Campus off of Ignacio Boulevard which is also the main access point for much of the open space. Additional access points include Indian Valley Road to the north and Fairway Drive to the south.

79 Marin County Board of Supervisors, Resolution 75-143, May 13, 1975.

11.4 MUNICIPAL SERVICES

Parks and Recreation

CSA No. 20 provides access to open space near the communities of Indian Valley and Marin County Club. The two open space preserves in the CSA, Indian Valley and Ignacio Valley, are managed as part of the larger Marin County open space system. Open space activities include biking, hiking, fishing, and horseback riding. A map of the open space area is shown in Figure 10-3.

Figure 10-3: Indian Valley and Ignacio Valley Open Space Trail Map\textsuperscript{80}

Funds collected by the CSA are primarily used to conduct special projects within the CSA area at the direction of the Advisory Board and for the benefit of the communities adjacent to the preserves. Completed projects include decommissioning of illegal trails and fencing of sensitive habitats\textsuperscript{81}. Recently the CSA has been looking at funding for re-alignment of Indian Valley Fire Road\textsuperscript{82}. However, due to rising wildland fire concerns, the CSA is now looking at funding fire fuel reduction including removing brush, downed trees, and dead or dying trees.

\textsuperscript{81} CSA 20 Advisory Board, Meeting Minutes for April 13, 2015.
\textsuperscript{82} CSA 20 Advisory Board, Draft Meeting Minutes for September 11, 2017.
11.5 ORGANIZATIONAL STRUCTURE

Board of Directors
CSA No. 20 was formed as a dependent special district with the Marin County Board of Supervisors as its governing body. A list of the current Board of Supervisors can be found in Section 8.6.

Advisory Board
CSA No. 20 is guided by a five-member Advisory Board that meets at least once per year. Members of this board are appointed to two-year terms by the County Board of Supervisors. Current members of the advisory board are provided below in Table 10-3. The Advisory Board meets to review budget items and planned projects for the upcoming year. They also provide input to county staff and provide recommendations to the County Board of Supervisors.

Staffing and District Operations
As a dependent special district of the County, all CSA functions are provided by county departments, including legal counsel and compilation of financial transaction reports for the State Controller’s Office required under Government Code Section (53891). The CSA is primarily administrated by Marin County Department of Parks and Open Space and specific CSA projects are overseen by county senior and principal engineers.

11.6 ACCOUNTABILITY AND TRANSPARENCY

Meetings and Agendas
Meeting agendas, minutes, and handouts can be found on the Marin County Parks webpage under CSA No. 20 Advisory Board.

Annual Budget Review
CSA No. 20 includes draft budgets as a hyperlink on the meeting agenda webpage. These draft budgets are excerpts from the County’s MUNIS system. The CSA is also included in the County’s annual financial audit under Budgetary Comparison Schedule County Service Areas Fund. The most recent audit was conducted for the year ending June 30, 2018.
11.7 FINANCIAL OVERVIEW

CSA No. 20 is funded through a portion of the ad valorem property tax from properties within the CSA boundary. There is no other CSA funding and expenses are limited to administration costs in most years except for when special projects, such as improving trails and fuel reduction measures, are approved by the Advisory Board. A summary of the CSA’s annual finances is provided in Table 10-5 below.

Special projects for the CSA are funded out of the reserve balance built up for the CSA. As of September 2018, the total fund balance for CSA No. 20 was $160,745.02. Trail realignment was scheduled for FY 2018-19 which was approved at $100,000. However, these activities were paused due to new direction from the Advisory Board. The fund balance will instead be carried over and utilized to fund fuel reduction projects in the area.\(^{83}\)

11.8 SUSTAINABILITY

CSA No. 20 is primarily composed of open space lands that connect to other Marin County Department of Parks and Open Space preserves and public lands. Warmer temperatures and longer drought periods increase the potential for wildfires in these areas that may threaten structures in the CSA. Currently planned fuel reduction projects will help decrease wildfire potential and provide better protection for CSA residents.

---

\(^{83}\) Jim Chayka, Marin County Department of Parks and Open Space, Personal Communication, June 13, 2019.
12.0 COUNTY SERVICE AREA NO. 25

12.1 OVERVIEW
County Service Area No. 25 (CSA No. 25) is a dependent, single-purpose special district organized to provide park and open space services pursuant to County Service Area Law (California Government Code Section 25210 et seq.). CSA No. 25 was formed in 1975 to fund the acquisition and preservation of the Mount Burdell area. This area, identified in the Marin County Parks and Open Space Strategic Plan, is an important land conservation area and a major element of a proposed greenbelt extending from Rush Creek wetlands to Stafford Lake Park. Since its formation, the Marin Open Space District, now a part of Marin County Department of Parks, has managed the Mount Burdell Preserve. CSA No. 25 currently provides no services and has no budget, fund balance, funding sources, or expenditures. As such, CSA No. 25 is considered inactive.

</tr>
</tbody>
</table>

12.2 FORMATION AND DEVELOPMENT
CSA No. 25 was formed in July 1975 by Board Resolution 75-224 as a means to raise funds for the purchase of several properties around Mount Burdell. The types of services authorized at its formation were local park and recreation facilities and services. The property purchase funded by the CSA included Exxon, Great Western, Nunes, and Exeter Equity holdings around Mount Burdell. Acquisition of the properties took place from 1976 to 1978 with the last property, Exeter, being purchased in February 1978. Purchase was funded by bond sales in the amount of $700,000 for the acquisition of the 1,266 acres and sale of land banked property as discussed below. Upon acquisition of the properties, the land was immediately conveyed to the Marin County Open Space District.

A portion of the Exxon property, approximately 49 acres, was to be used for land banking. This property was sold to private enterprise for development purposes to help offset the cost of the total land purchase for CSA No. 25. Sale of land was expected to total no less than $250,000. Any

CSA No. 25 - San Marin

Sources: Boundaries, Roads, Parcels: Marin Map GIS.

Figure 11-1

Date: 6/28/2019
12.3 DISTRICT BOUNDARY AND SPHERE OF INFLUENCE
CSA No. 25 was originally established with a boundary encompassing approximately 3,535 acres around Mount Burdell as shown in Figure 11-1. This includes the bond purchase area of 1,266 acres and additional land to the northeast which is now a portion of Olompali State Park.

12.4 MUNICIPAL SERVICES
As discussed previously, CSA No. 25 was formed primarily as a funding mechanism to purchase open space parcels. In January 1977 the Marin County Open Space District and CSA No. 25 entered into a Joint Power Agreement which identified the funding commitments, ownership, and management functions for each participating agency. As part of the agreement, all lands purchased by the CSA were immediately conveyed to and managed by the Open Space District. Additionally, the Open Space District was to consult with the CSA Advisory Board on land stewardship activities.\(^7\)

12.5 ORGANIZATIONAL STRUCTURE
As a dependent special district, the Marin County Board of Supervisors serves as the CSA’s governing body. The five-member Board of Supervisors meets the second and fourth Tuesday every month at 9:00 a.m. in the County of Marin Civic Building located at 3501 Civic Center Drive, Suite 260 in San Rafael. Upon the CSA’s formation, an Advisory Board was created to consult with the Open Space District. However, that board has since been disbanded and there is no currently active Advisory Board. CSA functions would be carried out by various county departments, however, as mentioned previously, CSA No. 25 currently provides no services and is currently inactive.

12.6 FINANCIAL OVERVIEW
Currently, CSA No. 25 provides no services and has no funding, no expenditures, and no fund balance. Marin County does not prepare an annual budget for this CSA. Originally, revenues generated from property taxes were used to pay off a $700,000 general obligation bond that was used to acquire several properties for open space. Following the bond repayment, which was scheduled to be completed by 1997, the CSA no longer has an operating budget and has since been inactive.

12.7 GOVERNANCE STRUCTURE OPTIONS
In 2017, Senate Bill 448 (Weickowski) was passed to streamline the process for LAFCos to dissolve inactive special districts. The new legislation requires the State Controller’s Office to create a list of inactive districts annually and to notify applicable LAFCos in which the inactive special districts are located. In accordance with Government Code (G.C.) Section 56879, the Commission must adopt a resolution initiating dissolution of inactive districts meeting the above definition within 90 days of notice from the State Controller’s Office. Following the adoption of

---

\(^7\) Ibid, 4.

\(^8\) Marin County Board of Supervisors, Resolution No. 77-40, February 1, 1977.
the resolution, the Commission must then hold a public hearing on the dissolution within an additional 90 days. Unless evidence is provided that qualifies the district as being active, the Commission must dissolve the district.

An inactive district is defined as a district that meets all the following criteria as set forth in G.C. Section 56042, as follows:

a) The special district is as defined in Government Code Section 56036, which specifies a special district as “an agency of the state, formed for general law or special act, for the local performance of governmental or proprietary functions...”
b) The special district has no financial transactions in the previous fiscal year.
c) The special district has no assets and liabilities.
d) The special district has no outstanding debts, judgments, litigation, contracts, liens, or claims.

CSA No. 25 meets the above criteria but has not yet been listed by the State Controller as inactive. Based on the County Auditor’s Office determination that CSA 25 is inactive, LAFCo, in coordination with the County and the State Controller’s Office, should take the appropriate steps to dissolve the district pursuant to G.C. Section 56879. Further, because CSA No. 25 has no assets, liabilities, outstanding debts, judgments, contracts or claims, there is no need to designate a successor agency for the district.
13.0 SERVICES EVALUATION AND DETERMINATIONS

13.1 REGIONAL MUNICIPAL SERVICES

In conducting a service review, the commission shall comprehensively review all of the agencies that provide the identified service or services within the designated geographic area. Services reviewed, on a regional scale, provide LAFCo with a broader understanding of service adequacy and efficiency. Evaluations consider service levels, service demand, financing challenges and opportunities, infrastructure needs and deficiencies, opportunities for shared facilities, and governance structure options. The commission may assess various alternatives for improving efficiency and affordability of infrastructure and service delivery within and contiguous to the sphere of influence, including, but not limited to, the consolidation of governmental agencies. Written determinations address mandatory factors required under the statute.

a) Regional Considerations for Fire & Emergency Response Services

Fire protection and emergency response services in the Novato region are provided by the Novato Fire Protection District. The FPD maintains a budget of over $30 million dollars that is spread over five distinct divisions. The FPD is able to support 78 staff that work at five fire stations and one administrative building.

The FPD participates in a number of regional collaborations including the Marin Emergency Radio Authority and jointly operates an Emergency Operations Center with the City of Novato. It also has several automatic aid agreements in place with regional emergency response agencies including the Marin County Fire Chiefs Mutual Aid Agreement which allows for county-wide mobilization during emergencies.

Currently, the FPD is seeking funding to fill vacancies in its Risk Reduction, Prevention, and Mitigation division. By expanding this division, the FPD would be able to better support residents in the Wildland Urban Interface by conducting hazard assessments and drafting fuel reduction plans. This could decrease the number of losses associated with wildland fires which is a growing threat to communities all throughout California.

b) Regional Considerations for Wastewater and Solid Waste Collection Services

The Novato Sanitary District provides wastewater collection and recycled water services. It also provides solid waste collection services through a contract agreement with Recology Sonoma Marin. NSD operates a central treatment facility that was recently upgraded in 2011 and maintains hundreds of miles of pipeline throughout the Novato region. It is also able to provide approximately 165 million gallons of recycled water that is delivered by the North Marin Water District.

Recent upgrades to the Novato WWTP have allowed NSD to improve their level of service while also planning for future development and growth in the region. The NSD has also been working on upgrading its sewer collection system since 2000. With hundreds of miles of pipeline in a range of conditions, upgrades will continue to take place. In FY 2019-20 the NSD will complete a
Collection System Master Plan that will identify needed improvements to its collection system. Having this long-range planning document will allow the NSD to adequately budget for needed upgrades over the next decade and seek out additional funding as needed for larger projects.

c) Regional Considerations for Parks and Recreation Services

Parks and recreation remain an integral part of the communities in the Novato region. The region has ample opportunity for recreation and could better serve residents in some areas by conducting long-term planning and considering governance structure and boundary changes.

d) Long-Term Planning

Parks and recreation services in the Novato region are mainly overseen by the City of Novato and the Marin County Department of Parks and Open Space. Additional park and recreation services are provided by Bel Marin Keys. These agencies have developed long-term planning documents that help guide capital improvement projects throughout the region. Another agency, CSA No. 20, could also benefit from such a document. CSA 20 exists for the purpose of enhancing features and amenities within the Indian Valley Open Space Preserve, which is managed by Marin County Open Space District. While CSA 20 reports that the utilize the current Marin County Open Space District planning documents to help inform decisions made by the Advisory Board. A long-term planning document specific to the Indian Valley Preserve, such as a list of project priorities, could help inform decisions made by the Advisory Board and help track management of funds and services.

e) Governance Structure and Boundaries

The Marin County Department of Parks and Open Space manages much of the open space area in the Novato Region including areas within the boundaries of CSAs Nos. 1, 20, and 25. This provides for consolidated management responsibilities and coordinated planning. In the case of CSA No. 25, all lands purchased by the CSA were transferred to the Open Space District which is now the Marin County Department of Parks and Open Space. As such, CSA No. 25 has no assets, revenue, or expenditures. It meets the criteria set forth by the State Controller’s Office for an inactive district and is eligible for the State’s inactive district list which would lead to the dissolution of the district. As the CSA has accomplished its original goal of land acquisition and no longer provides services to the region, this is a reasonable course of action.

f) Funding

In recent years the recreation facilities in the Novato region have benefited from Measure A funds. However, these funds are due to sunset in 2021. The City has also noted that revenues for Parks and Recreation and other City departments are highly dependent on community participation in programs. The cost of providing these services is anticipated to increase at a greater rate than revenues. Both the County and the City may consider researching additional long-term funding mechanisms, such as another bond measure or extension of the existing sales tax measure (Measure A), to continue funding park and recreation services in the Novato region.

g) Regional Considerations for Police Services
The City of Novato Police Department serves residents within and directly adjacent to the City’s boundary. Unincorporated areas of the Novato region are served by the Marin County Sheriff Office from their patrol unit’s Main Station in the City of San Rafael and the California Highway Patrol.

The City of Novato Police Department maintains a police force of approximately 20 patrol units and runs a range of community engagement efforts. Community efforts such as the Novato Response Team focus on crime prevention and neighborhood safety. The efforts of the police force have contributed to lower crime rates and very low citizen complaints. The department has an annual budget of over $15.5 million which accounts for approximately 38% of the City’s General Fund budget.

**h) Regional Considerations for Roads & Street Lighting Services**

The City of Novato Public Works Department is responsible for maintaining City facilities including roads, traffic signals, and thousands of street lights. The department works to improve pedestrian crossings, convert lights to LED in an effort to conserve energy, maintain adequate retaining walls, and repave roads along with many other regular maintenance and improvement projects.

Road maintenance outside of the City of Novato is the responsibility of Marin County. Major access roads to unincorporated areas include Bel Marin Keys Boulevard in Bel Marin Keys, Alameda de la Loma in Loma Verde, Harbor Drive in Black Point, Atherton Avenue in Green Point, and Indian Valley Road in Indian Valley. Major state roads include Highway 101 and Highway 37 which are maintained by Caltrans.

One issue that may arise in the future is the inundation of roads by sea-level rise. While much of Novato is anticipated to not be impacted by sea-level rise, according to the Marin Shoreline Sea Level Rise Vulnerability Assessment for the Novato region, some areas along San Pablo Bay and the Petaluma River could be impacted. In the event of 10” of sea-level rise and a 100-year Storm Surge event, approximately half of Bel Marin Keys Streets and portions of Green Point could see substantial flooding.

Another issue arising with road and street lighting services is the City’s ability to continue funding departments at current and anticipated future levels. The City has noted that the rising cost of employee compensation, contributions to medical premiums, and workers compensation is exceeding revenue increases which may lead to funding deficits. The City may want to look at other sources of long-term revenue to help offset these rising costs.

**i) Regional Considerations for Dredging Services**

Dredging takes place in navigable creeks and rivers in the region. Bel Marin Keys CSD provides maintenance dredging services for its North Lagoon and portions of Novato Creek near flood control structures. Additional dredging in the region is conducted by the US Army Corps of Engineers along the Petaluma River.

Bel Marin Keys CSD has been able to secure funding for regular maintenance of their North Lagoon though passing of Measure D. However, Novato Creek remains largely unfunded. The
last dredging that took place in 2005 and was funded by the passing of Measure F. Ideally the creek is dredged on a 20-year cycle to maintain the navigation channel. When the next major dredging of the creek is scheduled the CSD will need to consider additional funding options such as another bond measure or potential cost-sharing opportunities.

j) Regional Considerations for Planning

The City of Novato is the major jurisdiction within the document’s study area. While the largest in the area, water and sewer service are provided by other agencies. The provision of these services, along with land use authority, are some of the major factors determining development and growth. This means that growth on the unincorporated edges of the city is not generally at the discretion of the city, making it challenging for them to plan and provide for growth on their boundaries.

While Novato cannot have direct control over the unincorporated lands surrounding the City, there are tools available to them to further establish their region of interest. The Governor’s Office of Planning and Research (OPR) recommends that cities establish a planning area as a part of their general plan development. Novato should work together with the County and surrounding communities to delineate a Novato Planning Area and consider establishing formal agreements for processing development proposals in this area.
13.2  MUNICIPAL SERVICE REVIEW DETERMINATIONS

1) Growth and population projections for the affected area.
   a) Projected near-future growth is expected to be moderate. The Novato population is expected to increase to a total population of 53,900 by 2025 with an estimated annual growth rate of 0.3 percent.

2) The location and characteristics of any disadvantaged unincorporated communities within or contiguous to the sphere of influence.
   a) There are no identified DUCs within the Study Area.

3) Present and planned capacity of public facilities, adequacy of public services, and infrastructure needs or deficiencies including needs or deficiencies related to sewers, municipal and industrial water, and structural fire protection in any disadvantaged, unincorporated communities within or contiguous to the sphere of influence.
   a) As noted above, there are no unincorporated communities within the Study Area that have been identified as disadvantaged.

4) Financial ability of agencies to provide services.
   a) The City of Novato, Novato Sanitary District, Novato Fire Protection District, Bel Marin Keys CSD, and the County Service Areas all prepare annual budgets and prepare financial statements in accordance with established governmental accounting standards. The City Council, NSD, FPD, and CSD Boards, and County Board of Supervisors may amend their budgets by resolution during the fiscal year in order to respond to emerging needs, changes in resources, or shifting priorities. Expenditures may not exceed appropriations at the fund level, which is the legal level of control.
   b) The City Manager, Chief Engineer, Fire Chief, CSD General Manager, and County Administrative Officer are authorized to transfer budgeted amounts between accounts, departments or funds under certain circumstances, however; the City Council, NSD, FPD, and CSD Boards, and County Board of Supervisors must approve any increase in the operating expenditures, appropriations for capital projects, and transfers between major funds and reportable fund groups. Audited financial statements are also prepared for the City, NSD, FPD, CSD, and County by independent certified public accounting firms.
   c) While additional revenues are needed to provide some services and maintain infrastructure covered in this MSR, the agencies meet their financial responsibilities to provide services.

5) Status of, and opportunities for, shared facilities.
   a) The Marin County Department of Parks and Open Space provides shared services for CSA Nos. 1 and 20 by managing open space areas and preserves within the CSAs’ boundaries.
   b) The Novato Sanitary District is able to provide recycled water to the region that is distributed by the North Marin Water District.
   c) The Novato Fire Protection District operates an Emergency Operations Center jointly with the City of Novato and participates in multiple regional agreements for aid and operations.
6) **Accountability for community service needs, including governmental structure and operational efficiencies.**

   a) CSA No. 20 may consider a long-term planning document outlining special project needs within the boundaries of the CSA that include fuel reduction, trail realignment, and parking solutions along with other projects as deemed appropriate by the Advisory Board.

7) **Any other matter related to effective or efficient service delivery, as required by commission policy.**

   a) No other matters relating to the effective or efficient service delivery have been identified.
